COLORADO SPRINGS, COLO., WEDNESDAY, JANUARY 17, 1912

PRICE FIVE CENTS

## INTERVENTION PROBABLE IN CUBA

U. S. Sends Sharp Warning of  
Intentions if Military Med-  
dles in Politics

### NOTE BELIEVED SUFFICIENT

If Not, General Staff Prepared  
to Occupy Island Within  
Few Days

WASHINGTON, Jan. 16.—The state department has served notice on President Gomez that the United States will intervene in Cuba if further attempts are made by the Cuban government to nullify the law prohibiting the interference of the military in political affairs in Cuba.

The notification of the American government was served upon President Gomez through American Minister Beaupre at Havana.

Senator Martin Rivera, Cuban minister to the United States, was surprised at the action except through the press, and declined to comment upon it. He attended the diplomatic dinner at the White house tonight, where he met Secretary Knox as well as President Taft, but before leaving the location he said he did not expect to discuss the matter with either.

Note Based on Reports.

It was on reports of American Minister Beaupre that today's note was based. Minister Beaupre reported from Havana that in defiance of a decree issued by President Gomez forbidding officers of the army and navy to guard to participate in politics, many army officers and rurales attended a meeting Sunday night of the National council of Veterans, an organization of veterans of the Cuban war of independence. Such participation also is prohibited by law.

The veterans have been active the last three months in attempting to have displaced from the civil service persons who sympathized with the Spanish cause in the rebellion. Press articles today indicated that the veterans were threatening to coerce members of congress to nullify the law regarding the participation of the military in politics.

This move convinced the state department that the situation was the most serious that has presented itself since the veterans' move began. It had been evident to the department that President Gomez was practically powerless to resist the movement unless he receives substantial support from the outside.

Conflicts With Constitution.

The declared purpose of some of the veterans to make inadmissible for public service a large element of the population because they sided with Spain in the revolution, had been pointed out as inconsistent with the individual freedom and rights guaranteed by the constitution of Cuba. The United States regarded, too, the activity of the veterans as likely to threaten the stability of the republic, and hence the sharpness of the warning issued today. The United States being by treaty bound to see that the Cuban constitution is observed.

The state department has turned to the treaty and after a careful study of the obligations imposed it was concluded that the time had come to serve warning that for the second, and perhaps the last time, the United States was prepared to intervene in Cuba if necessary.

The officials here entertain no doubt whatever as to the result of this note of warning. President Gomez will comply.

(Continued on Page Three)

## CARDINAL FARLEY HOME

Forced to Remain on Steamer Over  
Night. He is Overwhelmed With  
Wireless Messages

NEW YORK, Jan. 16.—After two full months absence during which he was made a prince of the church, Cardinal John Farley returned to the United States tonight.

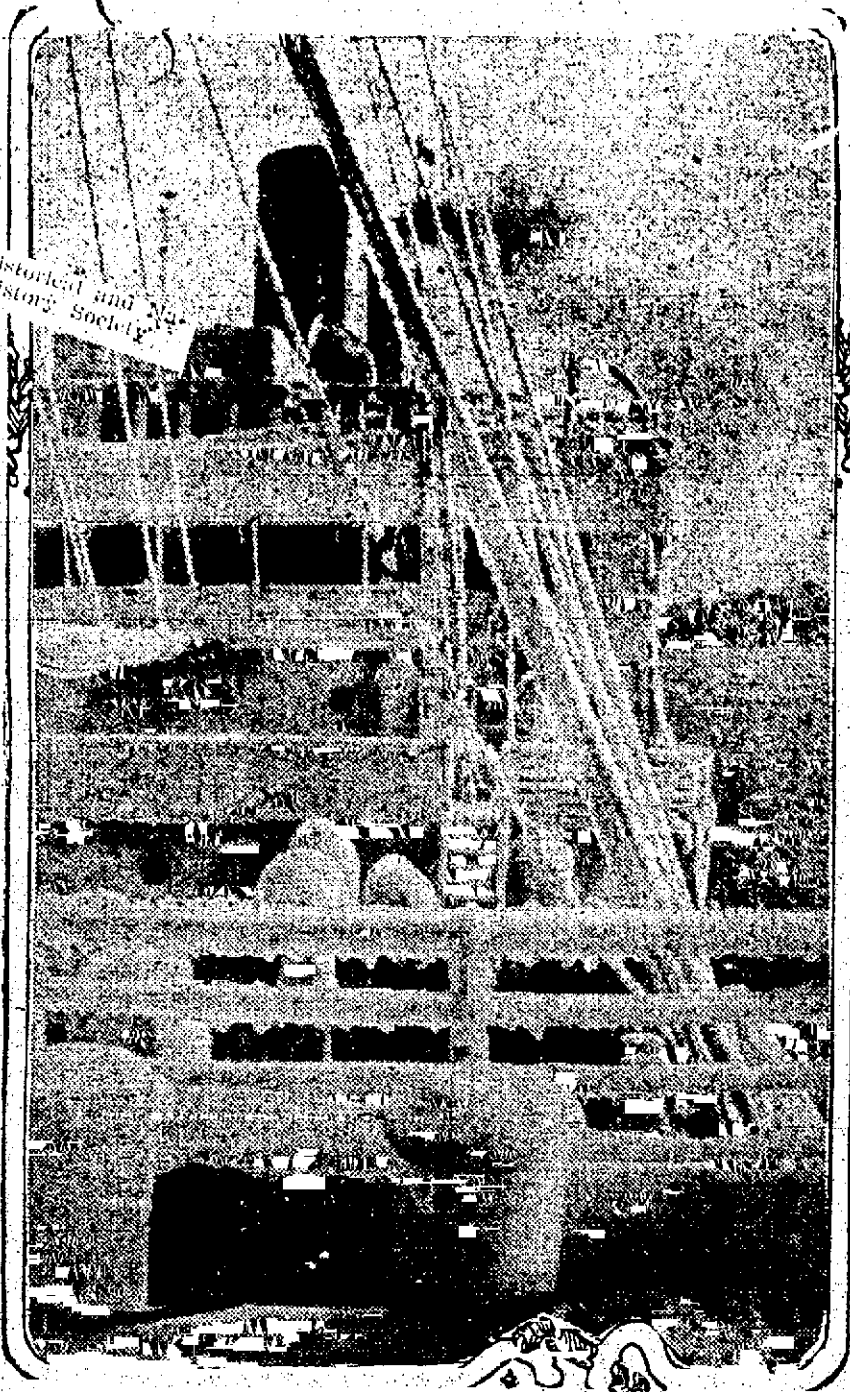

He did not get quite within hand-shaking distance of any of the million of Catholics under his spiritual care as Archbishop of New York, or of his host of admiring friends outside the church, but through the zero weather or sea, the warmth of wireless messages flashed all evening long.

The steamer Berlin, bearing him, entered the lower bay at 9 o'clock tonight and dropped anchor an hour later off quarantine, where she will be held up until tomorrow.

Wireless operators reported the air virtually flooded with greetings from friends ashore, to which the cardinal could only reply with one all-inclusive thanks.

"My heart is filled with gratitude to everybody," he replied. "Anything at this time would be superficial, having the sound of self-laudation, which would be most unseemly. It is unnecessary again to tell the people that I will be exceedingly glad to get home."

Wireless press dispatches reported his eminence in the best of health. He will sleep on board the steamer tonight and when he disembarks he will find hundreds of thousands of friends ready to give him a remarkable ovation.

Portion of the steamer Bluecher covered with a glistening coat of ice from stem to stern. When she arrived at the port of New York from Hamburg, huge icicles were hanging from her rigging, and a coating of ice more than seven inches thick covered her steel plates. The steamer made a pretty picture as she proceeded up New York bay, glistening in the sunlight.

## Encouraging Tunnel Reports Read; All Officers Reelected

All officers and directors, together with the executive committee, of the Cripple Creek Drainage and Tunnel company, were reelected at the annual meeting yesterday in the offices of the Colorado Title & Trust company in this city. The officers, all of this city, are: Frank G. Peck, president; A. L. Harris, vice president; W. R. Waterson, secretary; Arnold Nydger, assistant secretary, and the Colorado Title & Trust company, treasurer. The executive committee consists of Mr. Peck, E. M. De La Vergne, Colorado Springs, and A. E. Carlton, Cripple Creek. The directors are: Mr. Peck, Mr. De La Vergne, Mr. Carlton, Mr. Burris, J. T. Milliken, St. Louis; F. Castello, F. L. Sigel, Denver; C. C. Hamilton and William Lennox.

"Everyone was pleased with the showing that has been made," said President Peck last night, following the meeting, "but we are all worried over the prospects of the future in regard to the work that we want to finish. We have money to take the tunnel as far as the Mabel M. or Gold Dollar water course, but \$25,000 will be needed with which to complete the work from there to the granite contact. We may get it and we may not. I expect to experience a lot of trouble in raising the money."

At yesterday's meeting reports were made by Engineer T. R. Countryman and the different officers. According to Countryman, the tunnel will cut the Mabel M. or Gold Dollar water course, about 500 feet from the heading, within the next 60 days. The engineer presented a sectional map of the tunnel, showing the formations already cut and the positions of the big water flows so far encountered. The work in the breast, which is in the granite, is progressing at the rate of about eight feet a day in wet territory. For the last two weeks the flow has been steady at about 9,200 gallons a minute, whereas the report for the last half

of December showed a flow of about 5,000 gallons a minute a trifle less. The map shows that the water level in the district has been lowered an average of 85 feet within the last ten months, not taking into account the unwatering of the El Paso property and of several properties in the immediate vicinity.

"We now are headed for the Mabel M. or Gold Dollar water course," said Mr. Countryman, "and expect to cut it into it within the next 500 feet. If this fissure vein goes down to the tunnel level we will undoubtedly encounter a very large flow of water and open up a huge area of drainage territory. About 1,000 feet beyond that water course we ought to cut the main contact between the granite and what is known as the main 'rupture.' As this contact, undoubtedly goes down, we ought to cut a tremendous water flow at that point, and with that the main prospective point for the tunnel, and when it is reached the promoters may well feel that their work is accomplished and the tunnel is fully completed."

## INDICTED MEN CALLED TO STAND IN CONNORS TRIAL

LOS ANGELES, Cal., Jan. 16.—A. B. Maple and F. Ira Bender, alleged accomplices of Bert H. Connors in what was said to have been a plot to dynamite the county jail of records, were witnesses at Connors' trial today.

They were called by the state, it being desired to have them testify as to their height and weight, but the defense objected and was sustained by the court. The two men jointly indicted with Connors and whose trials will follow his, were escorted back to jail soon after they entered court.

The state's object in calling Maple and Bender was to learn of their descriptions of themselves would tally with that of Policeman Abel, who testified that he had seen a tall and short man prowling about the hall of records the night Connors was arrested there. Maple is tall and Bender is short.

The major part of the afternoon was consumed by technical arguments as to the admissibility of testimony which the state desired from Edwin M. Williams, the official stenographer who reported the acts of the county grand jury which indicted Connors, Maple and Bender. The case will be resumed tomorrow.

LOS ANGELES, Jan. 16.—The county grand jury this afternoon adjourned for two days, to await the ruling by Judge Willis tomorrow on the motions to dismiss the two charges of jury bribery against Bert H. Franklin, the McNamara detective.

## RECOMMENDS THAT FRISCO COMMISSIONS BE OUSTED

SAN FRANCISCO, Jan. 16. It became known today that the civil service committee of the grand jury which has been investigating municipal conditions, had returned a report which censures severely the various commissions of the McCarthy administration and recommends that practically all the McCarthy holdover commissioners be ousted from office. Among them are the civil service commissioners, the board of health and police commissioners, the board of public works and the head of the department of electricity.

## DECLARE FOR THREE HIGHWAYS IN STATE

County Commissioners of Colo-  
rado in Session at Denver.  
Much Business Up

Special to The Gazette.

DENVER, Jan. 16.—A mild rebuke was handed out today by the County Commissioners Association of Colorado, during the fourth annual meeting, to the recent conference of the Colorado Good Roads association at Pueblo. The rebuke came in the way of a resolution condemning the action of the conference in designating one road as the best for a national interstate highway. Fifty-seven counties were represented at the meeting.

The commissioners adopted a resolution endorsing all three of the roads from the east through Denver, Colorado Springs and Pueblo as highways worthy of support. The commissioners will ask that the three roads be improved in the state.

The resolution, as passed, is identical with the one that the delegates from this city and section worked for during the recent Pueblo good roads conference.

The El Paso commissioners again had a chance to act as peace makers. One resolution was presented that was very strong in its words of condemnation of the Pueblo conference and the work done by Pueblo county representatives in backing the convention hall with the southern route supporters. It was only after a long argument that the resolution was laid over for another day, and the El Paso commissioners devoted the time to smoothing things over.

On Important Committee.

Harry Hutchinson of El Paso county is a member of the committee on housing the insane and of the legislative committee. This committee on housing the insane is preparing a report on the advisability of enlarging the state insane asylum. It is understood that the committee will ask the county commissioners association to insist on more cottages and land for the state insane asylum.

The conference probably will make definite action tomorrow on the proposition of installing a uniform system of accounting, as outlined by the state auditor's office, for the various county clerks of the state. A majority of the commissioners are against the new system, it is said, owing to the added expense.

B. A. Banta, of El Paso county, is a member of the legislative committee, the other members of which are: Charles Mayer, Eagle county; W. I. Miller, Montezuma county; Elmer Wiley, Gunnison county; G. M. Damron, Otero county; R. C. Williams, Arapahoe county; Dr. W. M. Robertson, Denver; A. M. Lambright, Bent county; R. W. De Vinney, Weld county; S. L. Silvius, Pitkin county; W. R. Alred, Fremont county; W. N. Wilson, R. W. Shearer, Fort Morgan.

In spite of the fact that Denver has abolished its board of county commissioners, W. M. Robertson, president of the board of supervisors, was made a member of the association.

Officers Re-elected.

J. P. Madden, chairman of the El Paso county commissioners, is secretary-treasurer, and B. A. Banta, also of El Paso, is first vice president for another year, as a result of yesterday's election; when the same officers were re-elected. The other officers include: W. T. Whinnery, Hinsdale county, president; C. B. Bowles, Adams, second vice president; J. H. Cowdin, Crowley county, third vice president.

At tomorrow's session, a resolution endorsing the proposed \$10,000,000 bond issue for the state for highways, will be brought up for action. It is thought that the resolution will pass.

## RAILWAYS' RECORDS IN BURNED BUILDING SAFE

NEW YORK, Jan. 16.—Anxiety of the officials of the Union Pacific and Southern Pacific railroads was relieved today when a steeply pitched scaled wall of the burned Equitable building and found the records books of the two railway companies intact in the vaults on the third floor.

Although that part of the building was a mass of debris and wreckage, the vaults had held the railway records safe from damage.

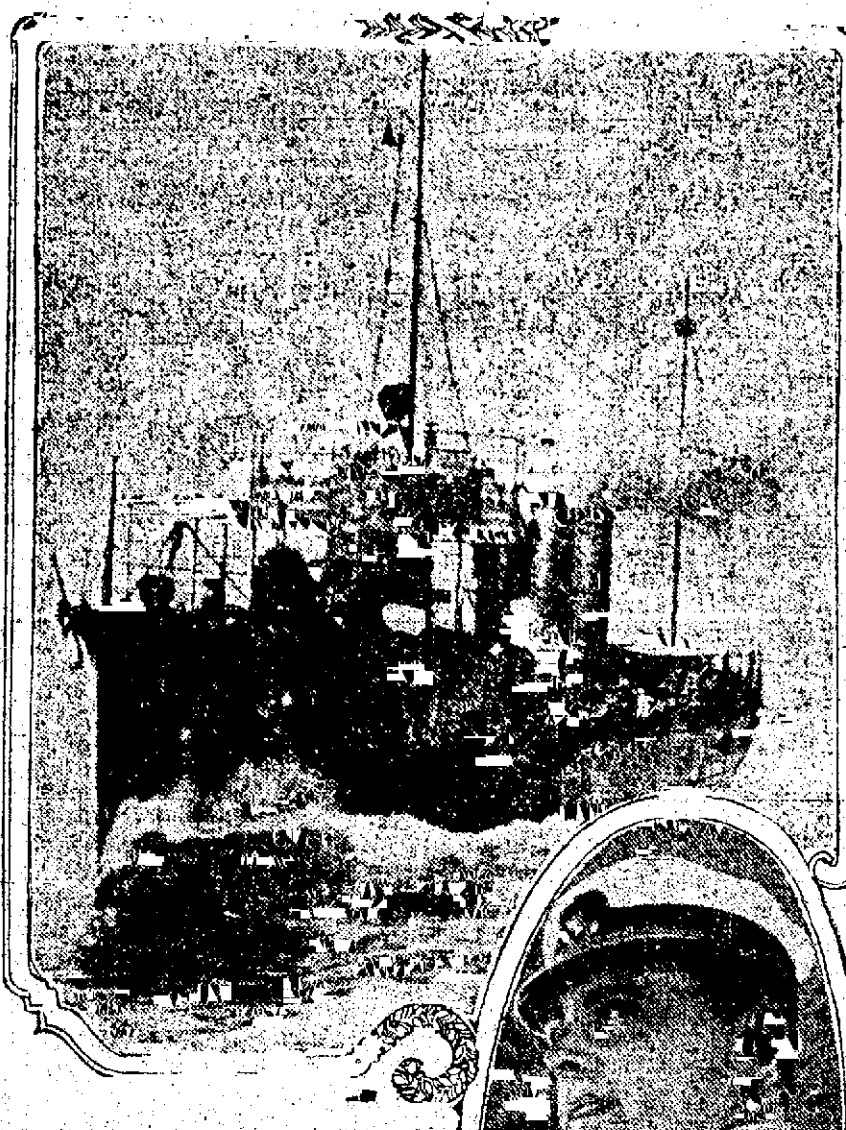

The records include the names and addresses of stockholders, and had they not been found, a tedious canvass throughout this and foreign countries would have been necessary. The contents of the vaults will probably be removed tomorrow.

## Arrested on Charge of Taking Fence from Grave

SAN FRANCISCO, Jan. 16.—Albert Sweet was arrested here today, charged with having stolen the iron fence that surrounded the burial place of J. S. O'Brien, a bonanza king in the early days and a former associate of John W. Mackay, in Calaveras cemetery. The fence, which was valued at \$1,000, was disposed of to a junk dealer, it is alleged.

## URGES RESTORATION OF THE ARMY CANTEN

WASHINGTON, Jan. 16.—A petition urging the restoration of the army canteen was presented to congress today by Representative Bartholdt of Missouri. It bore the signatures of more than 400 physicians and 325 mothers and wives of army men. It contended that the "moral and physical health of the soldier requires the reestablishment of the canteen."

## EQUITABLE OFFERS TO EUY TRUST CO.

Purchase Price Proposed for  
Trust Company of America  
\$375 a Share

NEW YORK, Jan. 16.—Alvin W. Krech, president of the Equitable Trust company, has submitted an offer to purchase all the stock of the Trust Company of America at \$375 a share.

Trus, Oakleigh Thorne, of the Trust Company of America, said today that the directors and stockholders as a whole have been able to see, favor the offer which will be submitted to all the stockholders.

The exact purpose of Mr. Krech's offer is not disclosed, but Wall street assumes that it is made in the interest of the Equitable company.

The Trust Company was organized by Mr. Thorne and associates in 1895. It was the center of much interest in the panic of 1907, and withdrew a "run" by its depositors which lasted almost a week.

The part played by the Trust Company in that crisis led to the taking over by the steel corporation of the stock of the Tennessee Coal and Iron company, which the Trust Company of America held as collateral.

Capital Stock \$2,000,000.

The capital stock of the Trust Company of America is \$2,000,000 with a surplus, according to last year's report, of \$6,000,000. Its deposits approximate \$30,000,000, with assets in excess of \$40,000,000.

The Equitable Trust company was organized in 1902 and has always been regarded as an offshoot of the Equitable Life Assurance society, with close Gould and Harriman connections. The capital is \$2,000,000, surplus \$10,000,000, undivided profits about \$1,200,000, and deposits \$35,000,000, with total assets of about \$50,000,000.

The Equitable Trust company was made homeless by the Equitable building fire. Should it acquire control of the Trust Company of America, it will probably move to the Trust Company of America building, one of the largest in the financial district.

There will probably be a disposition in some quarters to regard the acquisition of the Trust Company of America by the Equitable Trust company as a natural result of the recent consolidation of a number of trust companies in which the Morgan influence has been paramount.

## CHARGES P. O. OFFICIALS WITH FAVORING RAILWAYS

WASHINGTON, Jan. 16.—Charges that postoffice department officials illegally expended \$1,000,000 in payments to railroads for railroad cars that did not come up to the legal standard, were made before the house committee on reform in the civil service today by Urban A. Walters of Denver.

Mr. Walters said that the postmaster general and his assistants had compelled subordinates to certify that specified service had been rendered when as a matter of fact it had not been rendered. His particular charges were that the cars furnished for railway mail services were "unsafe and worked hardships upon the mail clerks, resulting in loss of life, limb and health."

The committee decided to report favorable the Lloyd bill, protecting government employees against discharge when they petition congress in their own behalf.

## PROPOSES SUSPENSION OF DUTY ON POTATOES

WASHINGTON, Jan. 16.—A suspension for six months of the tariff duty of 25 cents a bushel on potatoes was proposed in a bill introduced today by Representative Ayers of New York. The bill said that the scarcity of potatoes in the markets of the United States has raised the price to a point almost prohibitive to the consumers.

## URGE REFORM IN NATION AND STATE

Colorado Progressive Repub-  
licans Hold Rousing Meet-  
ing in Denver

### ADOPT STRONG RESOLUTIONS

La Follette and Roosevelt  
Named as Leaders Move-  
ment Local Issues

Special to The Gazette.

DENVER, Jan. 16.—Resolutions were adopted by the Colorado Progressive Republican league at its meeting here tonight at the Albany hotel, scathingly denouncing the Republican administration as expounded by President Taft and other "standpat" Republicans. The old party organization is charged with being directed by public utility corporations, of having one platform for election purposes and another for its legislative assemblies. The resolutions decry the system of the party which has refused to stop or try to check election frauds and crimes.

Robert M. La Follette and Theodore Roosevelt are named as the acknowledged leaders of the progressive movement, and the resolutions adopted tonight stand firm in their insistence upon the nomination of one or the other at the coming Republican convention, and looking to that end, the Colorado Progressive Republican league demands that the Republican state central committee call a presidential primary to be held on the day delegates are elected to the several county conventions, and that the ballots used be so formed as to permit a first and second choice on presidential candidates.

In speaking of the resolutions, Philip B. Stewart of Colorado Springs said at the meeting tonight:

Chance to Get Together.

"It is not essential that every Progressive Republican subscribe to or endorse every item contained in these resolutions, but the important point in this connection is that the resolutions are the embodiment of progressive principles. They afford an opportunity for Progressive Republicans to get together in a sincere and what promises to be an effective effort to bring the people in control of their government again."

Mr. Stewart touched upon what he called the propriety of the evening voter to reflect his duty and thereby make possible misgovernment which results to the injury of the people. He urged every voter to be at the polls on election day and to use his franchise for the betterment of government and of the masses.

Mr. Stewart was chairman of the committee of six which drafted the articles of organization for the league. The other members of the committee were Ira M. DeLong, Merle D. Vincent, E. P. Costigan, R. M. McCulloch and Karl A. Bickel.

At noon today a luncheon was held in the Savoy hotel in order to perfect plans of organization and to shape the purpose of the meeting, which was held

(Continued on Page Two)

## ARREST INDICTED MINISTER

Rev. McFarland, Held in Tennessee for  
Death of Girl, Declares He is  
Innocent of Charge

PITTSBURGH, Pa., Jan. 16.—An indictment was returned by the grand jury late today against the Rev. W. D. McFarland, minister and educator of Cedar Creek, Green county, Tenn., formerly of this city, charging him with felony in committing two operations upon Miss Elsie Dadds, his former secretary, which resulted in her death last Friday.

According to a report here tonight, Mr. McFarland has been arrested by the Tennessee authorities and will be held at Greenville until the arrival of a Pittsburgh officer.

Ballis McConnell of Chicago, who represents a local firm in that city, mentioned Miss Dadds as a dying state ment as being responsible for her condition, reached here today and conferred with District Attorney William A. Blakely. Later McConnell went before the grand jury and testified to his relations with the deceased. There is no charge against McConnell.

The Rev. McFarland formerly was head of the academic department of the Pittsburgh high school. Miss Dadds, aged 28, had been Dr. McFarland's secretary. He is about 60 years old and married.

GREENVILLE, Tenn., Jan. 16.—The Rev. W. D. McFarland, wanted in Pittsburgh in connection with the death of Miss Elsie Dadds, is in jail here tonight and protests his innocence of the crime charged against him. The preacher's teacher is held without bail. He firmly asserts he is not responsible for the condition the young woman was supposed to have been in, nor was he in any way responsible for her death. He said he was anxious to return to Pittsburgh to have the charge investigated thoroughly.

Original Enlistments in  
**Army Average 19,373**

WASHINGTON, Jan. 16.—Secretary of War Stimson sent a report to the senate today showing that during the last 10 years original enlistments in the army have averaged annually 19,373; reenlistments 10,218; discharges upon expiration of enlistment terms 18,089; discharges for disability 1,234; for court martial, 2,256; for desertion, 5,197; and through death, 332.

## ROAD FUND \$1,550,000

DENVER, Jan. 16.—It was announced by State Treasurer Rood today that the internal improvement fund instead of being \$500,000 as had been previously stated, in reality amounted now to \$1,550,000. This entire sum must be used for road improvements, subject, of course, to legislative enactment.

## COLDS

**GRIP**

Munyon's Cold Remedy Relieves the head, throat and lungs almost immediately. Cures Croup, whooping Cough, the nose, takes away all aches and pains caused by colds. It cures Grip and Obsolete Coughs and prevents Pneumonia.

## ARRANGEMENTS FOR G. O. P. BANQUET ARE COMPLETED

DENVER, Jan. 16.—Arrangements are complete for the harmony banquet which the Republicans are to hold on the night of February 12, following the meetings of the Republican state central committee, of the county chairman and secretaries and of the Republican editors during that day.

The general committee on arrangements held its second meeting Saturday night and listened to reports from all of the committees. The committee on speakers reported the following program for the evening:

Jesse H. McDonald, chairman.  
President Slocum, Colorado college, invocation.  
T. H. Devine, toastmaster.  
Senator Albert J. Beveridge, principal address.

The committee having in charge the banquet reported that they had closed the contract for 1,000 covers, which will be sold at \$3 per plate, and that already there is a large demand for them. The menu will be exceptionally good and the arrangements are such that the meal can be served in a very short time.

Arrangements have been completed for a band, an orchestra and a quartet. The committee on decorations reported that the room will be tastefully decorated and, in fact, the reports of the various committees show that the evening will be filled with exceptionally pleasant features.

Senator Beveridge is a good drawing card. The fact that it is a harmony banquet will increase the interest and the evening's program should be a success in every particular.

A feature most emphasized by the banquet committee is that the affair is informal. There will be no invitations issued. Every person who styles himself a Republican has the right to attend and it is not a dress-suit affair. The object of the committee is to secure as large a gathering of Republicans as it is possible to secure.

## Treaties as Proposed Would Become a Farce, Sen. Rayner Declares

WASHINGTON, Jan. 16.—Senator Rayner of Maryland, in a speech today on the arbitration treaties with Great Britain and France, contended that after the proposed joint high commission had determined to submit a controversy to arbitration it would be useless to give the senate the right to reverse the commission's action. He declared to the senate that the treaties would become a mockery and a farce if such a resolution permitting arbitrators to decide a case and then giving the defendant the right to reverse it if the award did not suit, were written into the ratifications as proposed by Senator Lodge.

"What is the use," he asked, "of having the high commission, of paying the enormous expense and of involving it with the power that it has, if its judgment is not going to amount to anything whatever on the face of the earth and if the senate shall have the right to set it aside whenever it suits?" To me, the whole complicated system of the treaty is absurd, if you propose to tack a proposition of this sort on to it.

"If the state department has changed its mind—and it appears that it has—then let us rewrite the treaty and be frank with each other and strike out the clause in the treaty which gives the commission the right to determine whether it shall send a controversy to arbitration. I am perfectly willing to abide by the decision by the joint high commission. But I am not willing to enact a comedy like this which places the whole power in the hands of the senate and then leaves foreign countries to understand that the power vested in the commission is a genuine one and that we intend to abide by it."

"I have no objection to the resolution of Senator Root in the formal ratifications. That is the way the treaty ought to be passed and ought to be adopted so as to make it perfectly plain that we will not arbitrate questions like the Monroe doctrine, state indebtedness or immigration."

Senator Rayner added that the treaties did not mean an alliance with Great Britain or any other country.

"If they did," he said, "I would rather see the treaties torn into shreds than accepted. The day will come when Germany will enter into the compact and when that comes the United States and Great Britain, Germany and France sign and seal the covenant of the universal peace will dawn upon the world."

Then the earth will no longer rock beneath the tread of battling legions and naval armaments will no longer patrol the waters of the world in search for the possessions of unconquered races and then undergo guidance, the dove of peace will build its nest within the cannon's mouth."

## ITALY SEIZES FRENCH SHIP

TUNIS, Jan. 16.—A wireless message received here today says the French steamer Carthage, bound from Marseilles for Tunis, has been arrested on the high seas by Italian torpedo boat destroyers and taken to Cagliari, island of Sardinia.

The Italian authorities considered that an aeroplane belonging to the Aviator Duval and parts of another belonging to the Aviator Obre, aboard the Carthage, were contraband of war. Duval and Obre, who are both here to give exhibition flights, learned of the seizure of the Carthage and lodged a protest at the residence-general. Obre points out that he recently made flights at Cagliari and Sassari and had been authorized by the Italian authorities to take his machine back to Marseilles.

## INAUGURATION CHANGE BILL TO BE FAVORED

WASHINGTON, Jan. 16.—The house judiciary committee today advised favorably reported the Henry resolution changing the date of the presidential inauguration from March 4 to the last Thursday in April and the terms of representatives in congress to begin the second Tuesday in January instead of on Monday. The changes would be effective April, 1917, and January 1918, respectively.

The resolution would provide for extension of the term of the president and vice president elected in 1912 to the last Thursday of April, 1917.

Congress would convene annually on the second Tuesday in January. This would leave the biennial elections in November except in Oregon in June, and Maine and Vermont in September.

Several Democratic members reserved the right to amend the resolution on the floor.

The bill also would give congress constitutional power to legislate as to succession where there is a vacancy on account of the death or inability of the president-elect and vice president-elect between the counting of the electoral vote and the inauguration.

"There is a complete hiatus here at present," said Mr. Henry, "and should these officials die or become totally disabled between those dates, there is now no authority for filling the vacancies."

## For a Round, Plump Face

Madame Marie, writing in the Washington Gazette on health and beauty says: "It is useless to experiment with new and unknown developers or massaging when the Vaucaire treatment is so easy to use and so certain in its results. This treatment originated in France and the women of that country, who are noted for their beautiful and graceful forms, are the greatest exponents of this most wonderful treatment. Anyone can easily prepare this treatment at home, and for the benefit of my readers I will tell you how: Make a pint of Ayup, using a cup and a half of sugar to enough water to make a pint, then add one ounce of true gailol. Take a tablespoonful before meals; in a few weeks you will be surprised at results. The principle of the treatment is to nourish underfed or starved tissues and to energize them so they will respond quickly. When this is done, hollows round out and the flesh becomes firm, while the form assumes its true proportions and beauty of contour."

## CONTEMPLATES CAMPAIGN CONTRIBUTION INQUIRY

Sen. Culberson Defers Move to Force His Resolution Out of Committee on Promise of Action

WASHINGTON, Jan. 16.—Another campaign contribution inquiry is contemplated in the Culberson resolution calling for comprehensive election fund data which the senate committee on contingent expenses will be considered tomorrow. Upon a promise to that effect today, Senator Culberson deferred his expected move to force his resolution out of the contingent expenses committee, to which it was referred last June.

The resolution would direct the senate elections committee to inquire and report as early as possible the amount of money subscribed and paid to every political committee, or its treasurer, or any other member or official, by any person, firm, association, corporation, or committee, to attempt to influence the result of the congressional elections of November 3, 1904, and November 3, 1908.

The measure would require names of all such subscribers and the amounts they paid and a report on what measures are necessary to curtail further such subscriptions to prevent corrupt use of money.

## INTERVENTION PROBABLE

(Continued From Page One.)

force his decree against the participation of the military in politics and it is expected there will be a decided abatement of the war of words between office holders upon the places now filled by Conservatives. If these results are not obtained, then it may reasonably be expected that within a short time the American flag again will be hoisted over the government house in Havana.

## General Staff Prepared

The general staff long has had plans prepared for just such a maneuver as this. Major General Wood asked to be excused from discussion at this stage, but it is known that within a few days after the word was given several thousand troops would be marching aboard army transports at Newport News to sail for Havana.

Meanwhile practically the whole Atlantic fleet, which is now based at Guantanamo, on the south side of the island, would spread out and envelop Cuba so completely that there could be not a thought of successful armed resistance. The authorities here do not expect to be called upon to do this, but they are ready to act if it should be required.

## News From Havana

HAVANA, Jan. 16.—The news of threatened intervention by the United States in Cuban affairs which was published in the late editions of Havana afternoon papers caused intense excitement in the clubs and cafes, while in all places of public gatherings it was the absorbing topic of discussion. Astonishment and resentment against American interference were mingled with general incredulity.

When I can no longer enforce the laws and maintain perfect order I am ready to resign the reins of government. I repeat, the American government will find no excuse for intervention.

Gen. Emilio Nunez, ex-governor of the province of Havana and president of the veterans, said:

"I refuse to believe the report that United States contemplates intervention because the veterans are reported to have assumed an attitude of defiance to the Cuban government and because army officers attended our meetings, contrary to the military regulations and presidential orders. We have broken no laws, nor have we placed ourselves as a body in hostility to the government."

"The veterans association is not a political organization as evidenced by the membership, representing all political parties. The organization exists solely for the purpose of purifying the civil service and of excluding all former traitors to the cause of Cuban independence. Wherefore, we hold that all veteran military officers have a perfect right to attend our patriotic meetings."

"If the United States intervenes under present conditions, when no necessity exists to avoid disorder or restore order, then Cuba would be stripped of every vestige of independence. If this condition is forced on us, the United States will have to fight us, and that struggle for independence will not cease while a Cuban is left alive to defend the fatherland."

After giving the subject further consideration General Nunez said he was now convinced that the intimation of possible intervention was true, but for the present he had no comment to make, except to reiterate his previous remarks.

## Health And Success

are such intimate relations that no one can be expected to be well acquainted with success who does not keep good hold on health. Most serious sicknesses start in minor troubles of the digestive organs. Thousands know by actual experience that health and strength and therefore success

## URGE REFORM

(Continued From Page One)

later in the afternoon and tonight. At 7 o'clock, the Progressive Republicans gathered at the Albany and Chase Merle D. Vincent, chairman of the meeting. Mr. Vincent then appointed Mr. Stewart, chairman of a committee of six to draft articles of organization. Another committee consisting of one member from each county represented at the meeting was appointed to draft resolutions to express the purpose of the organization. At the night session Mr. Stewart reported back the articles of organization, which were adopted, as follows:

### Report Organization Committee.

That a state committee of the Progressive Republican League be organized, consisting of one member from each of the counties represented at this conference.

That the members of this committee made up from the counties represented here today be asked to meet before dispersing, and at such meeting proceed to elect from their members, or outside their members, an executive committee of seven, said executive committee to have the power to fill all vacancies, call meetings and provide ways and means for carrying out the purpose of this organization, subject always to direction by the general committee, or the call of the officers.

That the general committee of the executive committee, when the general committee is not in session, be authorized to increase the membership of the general committee by the addition of a member from every county not represented at this conference.

## DIVISION OF OPINION AMONG COAL MINERS

Ex-President of United Mine Workers of America Urges Individual Districts to Stand Solid on Wages.

INDIANAPOLIS, Jan. 16.—Division of opinion as to the policy to be pursued by the bituminous and anthracite coal miners unions of the country in attempting to enforce a demand for higher wages appeared among the leaders of the United Mine Workers of America when its annual convention opened in this city today.

The question that will be brought before the convention is whether the individual districts of the miners union shall sign new wage contracts with mine owners so they can be negotiated, or whether the miners, as a national organization, shall refuse to sign any contracts until the operators of all the districts have agreed to the miners' terms.

Thomas L. Lewis of Bridgeport, former president of the miners, declared he would press a resolution that the districts should sign a wage contract until the operators of all the districts are willing to sign.

"The suggestion to avert a long and costly strike," said Mr. Lewis, "is for the bituminous and anthracite miners to agree on what they will demand in their own districts and then stand solidly together until we have won a national victory. I have no desire to embarrass the administration. John P. White has been elected president, defeating me by 44,000 votes, but I believe it is my duty to persuade the convention, if I can, to adopt my policy, which has many more miners behind it."

President White said he would present his plan to the scale committee and would not announce it himself. He was associated as a student for higher wages in his annual report delivered today.

While he declined to commit himself in the matter, Vice President Hayes said opposition to the policy of a national strike will come largely from officials of districts bordering on "unorganized" coal fields.

"It must be remembered that while the United Mine Workers have a membership of nearly 200,000, there are about 600,000 coal miners that are unorganized," said Mr. Hayes.

The scale committee will go into session tomorrow, and is expected to submit a report before January 25.

## Statement That Someone Would Meet Dynamiter Is Taken Up by Grand Jury

INDIANAPOLIS, Jan. 16.—When you arrive in Omaha to blow up the power house you will be met by somebody who will show you where it is.

That statement, said by Orrie McManigal, the confessed dynamiter, to have been made to him by John J. McManigal, the confessed dynamiter, was the subject of the grand jury's investigation of the dynamite conspiracy today.

McManigal says, in response to the instructions from McNamara, he went to Omaha, Indiana, to blow up the power plant of an "open shop" contractor and was met by a man whose name he gave.

McManigal said the man told him he had communicated with McNamara about the job to be blown up, that the man himself could not do it because he was not experienced in explosives and so McNamara was chosen.

The evidence was in line with that being gathered by the government to ascertain who, if anyone, besides those already known, were implicated in the plot or more explosives scattered over the country in the last five years.

It was about the time of the Omaha job," according to McManigal, that McNamara said to him:

"I am going to get six or eight good fellows and station them about the country so that explosions will take place in different cities all night long and they won't know who is doing it."

McManigal is to be kept continually before the grand jury for the next three days, describing orally and in writing the details of his involvement in the dynamite business at Detroit in June, 1911, down to his arrest last April.

## COL. A. G. BROWNLEE DEAD

IDAHO SPRINGS, Colo., Jan. 16.—Col. A. G. Brownlee, director and first vice president of the American Mining congress, died here today after several months' illness. Mr. Brownlee was one of the founders and first officers of the Royal Mines of Chicago. He will be buried in Chicago.

## Assassination Was to Be Signal for Uprising of the Rebels in Peking

LONDON, Jan. 16.—The bomb thrower who attempted the life of Yuan Shi Kai yesterday, has confessed that the assassination of the premier was to have been the signal for an uprising in Peking, says a Peking dispatch to the Daily Telegraph.

The whole southeast portion of the city is now picketed with troops and a house to house search resulted in the discovery of a bomb factory and the arrest of several men having bombs in their possession.

"There are rumors of an attempt to poison the emperor," however, becoming suspicious, refused to partake of the fatal cup.

## Californians Are After Socialist Labor Party

FRESNO, Cal., Jan. 16.—The state building trades council in session here, probably will adopt a resolution endorsing a state Socialist Labor party.

This was suggested today by delegates. John Harriman, defeated Socialist candidate for mayor of Los Angeles, and Alexander Irvine, one of his campaign managers, addressed the council at great length today urging united political action.

While there is still an undercurrent of insubordination, the feeling among the labor delegates seems to be that there should be no attempt to oust either Deshaun McCarthy or Secretary-Treasurer Tyettmoor, at least until the present labor cases in Los Angeles have been decided.

## FOUR TRAINMEN KILLED

LOUISVILLE, Ky., Jan. 16.—Four trainmen are dead and two are probably fatally injured as a result of the head-on collision at Long Run, 18 miles east of here at 5:30 o'clock this afternoon between an inbound Louisville & Nashville passenger train and a Chesapeake & Ohio train of empty cars. Practically all the passengers on the Louisville & Nashville were injured. Two Chesapeake & Ohio brakemen suffered severe injuries.

## PACKERS TRY TO REFUTE CHARGES OF GOVERNMENT

CHICAGO, Jan. 16.—In an effort to refute the charges made by the government, the defense in the packers' trial today submitted figures from the books of Morris & Co., showing that in 1907, 1908, 1909 and 1910, 1,156,622 cattle were killed at the company's Chicago plant, on which the total net profits realized by the sale of fresh meat and by-products was \$1,008,215.75 or 87 cents a head.

The net profit on fresh meat in this period was one-eighth of a cent a pound, according to the books of the company.

This information was brought out in the examination of Harry A. Timm, chief accountant for Morris & Co. He explained in detail the accounting system in use by Morris & Co., and assumed personal responsibility for the various changes made in the amount of the allowances for by-products in figuring the cost of beef.

The witness denied ever conferring with representatives of Armour & Co., Swift & Co. and the National Packing company in figuring the net cost of beef.

## TO REPORT FAVORABLY ON IMMIGRATION BILL

WASHINGTON, Jan. 16.—The senate committee on immigration today agreed to report favorably the bill introduced by Senator Dillingham for regulation of immigration to the United States. The committee struck out the provisions that excluded aliens unable to read or write. This feature will be introduced as a separate measure.

## HELD FOR WHITE SLAVERY

RENO, Nev., Jan. 16.—Hyman London alias Hyman Londonsky, was held to answer to the grand jury today on a charge of white slavery. He was sent to jail in default of bail of \$1,000.

Marian Londonsky, alias Marian Phillips, his wife and alleged victim, has been taken in charge by a federal immigration officer and will be deported to England.

Jerusalem has evicted its dogs and introduced the latest sanitary devices.

## Pastor Russell Says Recognition of Chinese Rebels Is Essential

MANILA, Jan. 16.—Appearing before the International Bible Students investigating committee here, Pastor Russell, when interviewed today, said thousands of Chinese are starving in the interior from Shanghai.

"The revolution is popular yet it is in grave danger because of lack of money, of which the Manchus have an abundance," he said. "The revolutionists appreciate Andrew Carnegie's kind words, but they hoped for a loan to help them over the present crisis. At present they are forced to pay 40 per cent on loans until they are recognized, when their bonds will sell."

"Governmental recognition should come as quickly as good statesmanship will permit. When the hope of the revolutionists expires awful anarchy will result."

### ARRANGEMENTS FOR G. O. P. BANQUET ARE COMPLETED

DENVER, Jan. 16.—Arrangements are complete for the harmony banquet which the Republicans are to hold on the night of February 12, following the meetings of the Republican state central committee, of the county chairman and secretaries and of the Republican editors during that day.

The general committee on arrangements held its second meeting Saturday night and listened to reports from all of the subcommittees. The committee on speakers reported the following program for the evening:

Joseph B. McDonald, chairman, President Stanford, Colorado college, invocation.  
T. H. Devine, toastmaster.  
Senator Albert J. Beveridge, principal address.

The committee having in charge the banquet reported that they had closed the contract for 1,000 covers, which will be sold at \$2 per plate, and that already there is a large demand for them. The menu will be exceptionally good and the arrangements are such that the meal can be served in a very short time.

Arrangements have been completed for a band, an orchestra and a quartet. The committee on decorations reported that the room will be tastefully decorated and, in fact, the reports of the various committees show that the evening will be filled with exceptionally pleasant features.

Senator Beveridge is a good drawing card. The fact that it is a harmony banquet will increase the interest, and the evening's program should be a success in every particular.

A feature most emphasized by the banquet committee is that the affair is informal. There will be no invitations issued. Every person who styles himself a Republican has the right to attend and it is not a dress-suit affair. The object of the committee is to secure as large a gathering of Republicans as it is possible to secure.

### Treaties as Proposed Would Become a Farce, Sen. Rayner Declares

WASHINGTON, Jan. 16.—Senator Rayner of Maryland, in a speech today on the arbitration treaties with Great Britain and France, contended that after the proposed joint high commission had determined to submit a controversy to arbitration it would be useless to give the senate the right to reverse the commission's action. He declared to the senate that the treaties would become a mockery and a farce if such a resolution-permitting arbitrators to decide a case and then giving the defendant the right to reverse it, if the award did not suit, were written into the ratifications as proposed by Senator Lodge.

"What is the use," he asked, "of having the high commission, of paying the enormous expense and of investing it with the power that it has, if its judgment is not going to amount to anything whatever on the face of the earth and if the senate shall have the right to set it aside whenever it suits?" To make the whole complicated system of the treaty is absurd, if you propose to tack a proposition of this sort on to it.

"If the state department has changed its mind—and it appears that it has—then let us rewrite the treaty and be frank with each other and strike out the clause in the treaty which gives the commission the right to determine whether it shall send a controversy to arbitration. I am perfectly willing to abide by the decision by the joint high commission. But I am not willing to enact a comedy like this which places the whole power in the hands of the senate and then leaves foreign countries to understand that their power vested in the commission is a genuine one and that we intend to abide by it.

"I have no objection to the resolution of Senator Root in the formal ratifications. That is the way the treaty ought to be passed and ought to be adopted so as to make it perfectly plain that we will not arbitrate questions like the Monroe doctrine, state indebtedness or immigration."

Senator Rayner added that the treaties did not mean an alliance with Great Britain or any other country.

"If they did," he said, "I would rather see the treaties torn into shreds than accepted. The day will come when Germany will enter into the compact and when that occurs and the United States and Great Britain, Germany and France, sign and seal the covenant of the era of universal peace will dawn upon the world.

Then the earth will no longer rock beneath the tread of battling legions and naval armaments will no longer patrol the waters of the world in search for the possessions of unconquered races and then under a guidance, the day of peace will build its nest within the cannon's mouth."

### For a Round, Plump Form

Madame Marie, writing in the Washington Gazette on health and beauty, says: "It is useless to experiment with new and unknown developers or massaging when the Vaucaire treatment is so easy to use and so certain in its results. This treatment originated in France and the women of that country, who are noted for their beautiful and graceful forms, are the greatest exponents of this most wonderful treatment. Anyone can easily prepare this treatment at home, and for the benefit of my readers I will tell you how: Make a pint of syrup, using a cup-and-a-half of sugar to enough water to make a pint, then add one ounce of true galingale. Take a tablespoonful before meals; in a few weeks you will be surprised at results. The principle of this treatment is to nourish underfed or starved tissues and to energize them so they will respond quickly. When this is done, hollows round out and the flesh becomes firm, while the form assumes its true proportions and beauty of contour."

### ITALY SEIZES FRENCH SHIP

TUNIS, Jan. 16.—A wireless message received here today says the French steamer Carthage, bound from Marseilles for Tunis, has been arrested on the high seas by Italian torpedo boat destroyers and taken to Cagliari, island of Sardinia.

### INAUGURATION CHANGE BILL TO BE FAVORED

WASHINGTON, Jan. 16.—The house judiciary committee today ordered favorable reported the Henry resolution changing the date of the presidential inauguration from March 4 to the last Thursday in April and the terms of representatives in congress to begin the second Tuesday in January instead of on March 4. These changes would be effective April 1917 and January 1918, respectively.

The resolution would provide for extension of the term of the president and vice president elected in 1912 to the last Thursday of April, 1917.

Congress would convene annually on the second Tuesday in January. This would leave the biennial elections in November except in Oregon in June, and Maine and Vermont in September.

### REVISED BILL TO EXTEND LEGISLATURE TO ALASKA

WASHINGTON, Jan. 16.—A revised bill to extend legislative power to Alaska, subject to congressional approval, was introduced today by Delegate Wickersham of Alaska. The bill would locate the capital of Alaska at Juneau and create a council of eight members and a house of representatives of 16 members, all to be elected.

### CONTEMPLATES CAMPAIGN CONTRIBUTION INQUIRY

Sen. Culberson Defers Move to Force His Resolution Out of Committee on Promise of Action.

WASHINGTON, Jan. 16.—Another campaign contribution inquiry is contemplated in the Culberson resolution which the senate committee on commerce and customs will be considered tomorrow. Upon a promise to that effect today, Senator Culberson deferred his expected move to force his resolution out of the committee on commerce and customs to which it was referred last June.

The resolution would direct the senate committee to inquire and report as early as possible the amount of money subscribed and paid to every political committee, or its treasurer, or any other member or official, by any person, firm, association, corporation, or committee, to attempt to influence the result of the congressional elections of November 5, 1911, and November 3, 1908.

The measure would require names of all such subscribers and the amounts they paid and a report on what measures are necessary to curtail further such subscriptions to prevent corrupt use of money.

### INTERVENTION PROBABLE

(Continued From Page One.)

force his desire against the participation of the military in politics and it is expected there will be a decided abatement of the war of words between the military and the civilians now filled by conservatives. If these results are not obtained, then it may reasonably be expected that within a short time the American flag again will be hoisted over the government house in Havana.

### General Staff Prepared

The general staff long has had plans prepared for just such a maneuver as this. Major General Wood asked to be excused from discussion at this stage, but it is known that within a few days after the word was given several thousand troops would be marching aboard army transports at Newport News to sail for Havana.

Meanwhile practically the whole Atlantic fleet, which is now based at Guantanamo, on the south side of the island, would spread out and envelop Cuba so completely that there could be not a thought of successful armed resistance. The authorities here do not expect to be called upon to do this, but they are ready to act if it should be required.

### News Excites Havana

HAVANA, Jan. 16.—The news of threatened intervention by the United States in Cuban affairs which was published in the late editions of Havana afternoon papers caused intense excitement in the clubs and cafes, while in all places of public gatherings it was the absorbing topic of discussion. Astonishment and resentment against American interference were mingled with general incredulity.

Later as the news was fully confirmed, the impression became general that the suggestion of intervention probably would have a good effect in calming the existing Cuban agitation and in quieting political excitement.

President Gomez tonight said: "I have only recently received Secretary Knox's note through the American minister, Mr. Beaupre and have not yet made a reply, but probably will do so tomorrow. I am convinced that no occasion has yet arisen for any intimation of intervention. I believe that the Washington government's attitude is based on an erroneous view of conditions in Cuba arising from distorted and greatly exaggerated reports from Havana."

### Has Not Seen Report

When it was suggested that the action of the administration at Washington probably was based on reports from Minister Beaupre, the president replied that he did not have the honor of knowing the character of the minister's report.

Continuing, he said: "Peace reigns throughout Cuba and will continue to reign. I am fully in control of the situation, which does not call for alarm, and I am abundantly able to enforce the laws, applying not only to those in military service, but to all citizens."

"There are some persons whose conception of patriotic duties apparently tends to lead them to opposition to or conflict with the administration and the laws. I wish them to know that should they persist in a course inimical to the peace of the republic, I shall have to take the necessary steps to restore order, then Cuba would be stripped of every vestige of independence. If this condition is forced on us, the United States will have to fight us, and that struggle for independence will not cease while a Cuban is left alive to defend the fatherland."

### After giving the subject further consideration General Nunez said he was now convinced that the intimation of possible intervention was true, but for the present he had no comment to make, except to reiterate his previous remarks.

Gen. Emilio Nunez, ex-governor of the province of Havana and president of the veterans, said:

"I refuse to believe the report that United States contemplates intervention because the veterans are reported to have assumed an attitude of defiance to the Cuban government, and because army officers attended our meetings, contrary to the military regulations and presidential orders. We have broken no laws, nor have we placed ourselves as a body in hostility to the government."

"The veterans association is not a political organization as evidenced by the membership, representing all political parties. The organization exists solely for the purpose of purifying the civil service and of excluding all former traitors to the cause of Cuban independence. Wherefore, we hold that all veteran military officers have a perfect right to attend our patriotic meetings."

"If the United States intervenes under present conditions, when no necessity exists to avoid disorder or restore order, then Cuba would be stripped of every vestige of independence. If this condition is forced on us, the United States will have to fight us, and that struggle for independence will not cease while a Cuban is left alive to defend the fatherland."

cal to the peace of the republic, I know how and have at hand the means to compel a revision of their views as to what patriotism is.

### If too Weak, Will Resign

"When I can no longer enforce the laws and maintain perfect order I am ready to resign the reins of government. I repeat, the American government will find no excuse for intervention."

Gen. Emilio Nunez, ex-governor of the province of Havana and president of the veterans, said:

"I refuse to believe the report that United States contemplates intervention because the veterans are reported to have assumed an attitude of defiance to the Cuban government, and because army officers attended our meetings, contrary to the military regulations and presidential orders. We have broken no laws, nor have we placed ourselves as a body in hostility to the government."

"The veterans association is not a political organization as evidenced by the membership, representing all political parties. ## Encouraging Fight Against Tuberculosis in Colorado

Special to The Gazette  
DENVER, Jan. 16—Colorado, by applying scientific prophylactic measures is arresting tuberculosis in the human being, according to Charles Deacon, superintendent of the Union Printers Home at Colorado Springs.

This same state is fortified in the prophylactic of the task of eradicating tuberculosis in the lower animals, says Dr. George W. Holden, chairman of the Colorado State Association for the Prevention and Control of Tuberculosis, at the Brown Palace hotel.

"Eight years ago," says Mr. Deacon, "I might say that we never considered eradicating tuberculosis in the men who came to us from all parts of the country. The idea was to make them comfortable while they lived, but to count on their staying at the home for the rest of their lives. Now I can figure that in 50 per cent of our tuberculosis cases the disease is either cured or eradicated. About one-third of the inmates of the Union Printers Home are consumptives. The other two-thirds are aged and indigent. This showing, to my mind, conclusive proof that science is accomplishing much, and doing it right now, for the prevention and cure of the disease."

Dr. George W. Holden, chairman of the directorate of the association, is less optimistic.

Y.

sure early, but very often after they have failed these people come to us. "While I believe that we are doing much along scientific lines to eradicate tuberculosis, there are no figures upon which I could base a percentage estimate. The Agnes Memorial home is turning out cases which are living all over the United States. Colorado offers much as an all-year-round state to the victim of tuberculosis. The tramp who spends the summer here and the winter there, cannot hope to get well. For selected cases there is no climate like this. The blood values are increased here. The world is awakening to the importance of prophylactic measures, and this is in large part responsible for strides that cures for tuberculosis is making."

### Dangers Bovine Tuberculosis

Dr. George Glover, chairman of the department of the state association which is studying veterinary problems, believes that America will have to surrender its radical ideas if the tuberculosis problem among the lower animals is to be solved.

"This is very closely related to human tuberculosis," says Dr. Glover, "because the disease is communicable. I should say that bovine tuberculosis is much more to be feared than hog tuberculosis, because milk carries it more readily. The pork is cooked before it goes to the table, but milk is taken without any attempt to eradicate the germ. The government report shows that of condemned cattle 46 per cent are affected tubercularly, and of hogs 98 per cent. This is an alarming increase. Much of it is traceable to the feeding of garbage to hogs, but it has also been conclusively shown that hogs are susceptible to bovine tuberculosis."

"Few stock owners realize the importance of segregating the cattle and the hogs. It has been the policy in this country to slaughter wherever tests showed tubercular affection. This procedure has antagonized the stock owners and we have met with opposition rather than cooperation. I do not believe in slaughtering animals which may be found to have the germs of tuberculosis. In cattle the disease is not hereditary and the calves can be taken away when born and raised on pasturized milk. They are perfectly healthy. Then the owner of the stock does not become discouraged and does not resent the interference of those who would solve the problem."

### Is Communicable

"Tuberculosis in the lower animals is undoubtedly communicable to human beings. For years this was disputed. No less learned a man than Dr. Koch of Germany led the opposition to this belief. Now there is a preponderance of evidence to show that such is the case, and if tuberculosis is to be eradicated from the human family we must get right down to business on the stock. We have knowledge enough, but the magnitude of the problem paralyzes us."

S. Foulter Morris, executive secretary of the association, has prepared some interesting statistics to be considered by this meeting. One of them gives a comparison of tuberculosis mortality with that from other infectious diseases. Tubes of various sizes filled with eggs, each been representing one death, are on exhibition. They show that in the year ending October 31, 1911, there were in Colorado 1,325 deaths from tuberculosis; 351 from typhoid fever, 124 from measles, 91 from scarlet fever, 74 from diphtheria and one from smallpox.

Colorado, however, does not classify tuberculosis as infectious. This fact is emphasized in placards that line the walls of the ballroom where the general sessions are being held.

A copy of the bill passed by the eighteenth general assembly and vetoed by Governor Shafer is on exhibition. This bill provided for the reporting and registering of cases and the disinfecting of places where the disease had been. Thirty states have legislation of this kind. A map has been prepared showing the tuberculosis mortality in given houses scattered over the city for the years 1905, 1906, 1907, 1908 and 1909, for the purposes of investigating whether the first case in each house had anything to do with subsequent deaths therein.

### MANAGEMENT REELECTED

All officers and directors of the Assessor Savings and Loan association of this city were re-elected at the annual meeting yesterday, as follows: J. T. Ensign, president; Ira Harris, vice president; Donald D. Walker, secretary-treasurer; E. T. Ensign, Ira Harris, M. C. Gile, Lilia Ensign and Charles E. Lynde.

## Delegates Named by Zebulon Pike Chapter

During the January meeting of the Zebulon Pike chapter, Daughters of the American Revolution, held Monday afternoon in the home of the regent, Mrs. Walter C. Frost, an election was held for delegates and alternates to attend the continental congress in Washington, D. C., beginning April 19. Those elected were Mrs. Walter C. Frost, ex officio, alternate, Mrs. Thomas C. Pense, delegate, Miss Blanche Lytle, alternate, Mrs. Mina Stavton, alternate for regent, Mrs. David Elliot, alternate, Mrs. F. A. Sperry, alternate for delegate, Mrs. John E. White, alternate, Mrs. William T. Kasson, reserve alternates, Mrs. Goddard, Mrs. C. C. Hamilton, Mrs. A. T. Gunnell, Miss Mary Griffin, Mrs. William T. Gauss, Mrs. F. L. Rouse, Mrs. A. G. Sharp, and Mrs. E. T. Ensign. An election of delegates to the state conference which will be held at Fort Collins on March 21 and 22, was also held with the following result: Mrs. Frost, regent, ex officio; alternates, Mrs. W. K. Argo and Mrs. H. H. Seldomridge. One delegate for every 15 members required seven from Zebulon Pike chapter as follows: Mrs. Ira J. Morse, alternate, Mrs. E. W. Kent; Mrs. Frederick A. Mueller, alternate, Mrs. John Lemmon; Mrs. William Wells Price, alternate, Mrs. W. H. R. Stote; Mrs. Florence Lee Loomis, alternate, Mrs. James Owen; Mrs. F. A. Bissell, alternate, Mrs. M. O. Barnes; Mrs. Freeman L. Robbins, alternate, Mrs. Charles D. Robbins; Mrs. Martha Slaughter, alternate, Miss Genevieve Turner.

**Committee Named.**  
Mrs. Goddard and Mrs. Rouse were appointed a committee to report upon the condition of the stone placed by the Zebulon Pike chapter at Cascade and Pike's Peak avenues marking the spot where the first stake was driven in laying out this townsite.

The afternoon's program included a paper by Mrs. Frank A. Bissell on "Conservation," and several readings by Miss Genevieve Turner. The annual guest luncheon of the chapter will take place at Washington's birthday at the writers hotel, at 1 p. m. Mrs. H. H. Seldomridge at 11 o'clock will give a recital of music composed by American women.

## WILL NOT FORGIVE BERNDT

John Johnson, brother of the late Mrs. Charles Berndt, whose death at the isolated farm home near Yoder a few weeks ago from heart trouble is attributed to a brutal attack by her husband, now awaiting trial, has returned to his home in Des Moines, Ia. County authorities told of a visit Johnson made to the county jail before leaving.

As Johnson approached the cell, Berndt recognized him. He began weeping and his first and only question was:

"Can't you forgive me, John?" Johnson said that he could not. No other word was said between the two during the visit. Johnson left word with the county authorities that if his brother-in-law is convicted, he will try to take care of two or three children, although he is a hard working man, and had scarcely enough money to take him home. Berndt will have a hearing at the present session of the district court, it is thought, although the case has not been set.

## Colorado City DEPARTMENT

### IF DECLARED ANTISALOON

If Colorado City is declared antisaloonterritory by the supreme court, the city will have only \$1,400 with which to run until next April, according to a report made by City Clerk Ammann at the council meeting Monday night. There now is \$3,500 in the treasury, \$2,000 of which is license money, and will have to be refunded in case the city goes "dry."

Alderman Kelley threatened to bring charges against Mayor Hamble and Chief of Police Tawls for allowing several boys to practice boxing in the rear room of a saloon, and became so excited while making his speech that the mayor ordered the chief to make him sit down.

City Attorney Schreiber was instructed to draw up an ordinance abolishing the license fee of \$50 for electricians, so as to allow competition in that profession. A. Kohn states that he was overcharged by an electrician for work done, and asks that the council pass an ordinance abolishing the high license fee.

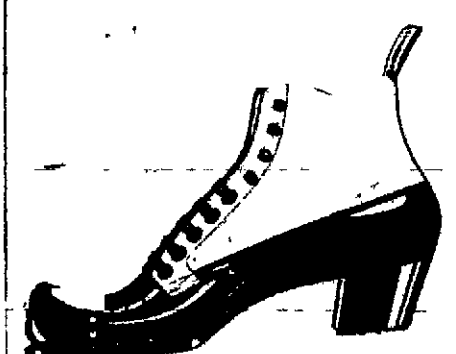

A resolution to abolish the office of street commissioner was offered by Alderman Kelley, but it was laid on the table.

strued to draw up an ordinance abolishing the license fee of \$50 for electricians, so as to allow competition in that profession. A. Kohn states that he was overcharged by an electrician for work done, and asks that the council pass an ordinance abolishing the high license fee.

A resolution to abolish the office of street commissioner was offered by Alderman Kelley, but it was laid on the table.

### DRAKE NEW DIRECTOR

Martin Drake of Colorado City was elected a director to take the place of Willis Armstrong at the annual meeting of the National Bank Building association of Colorado City yesterday. The officers and other directors were re-elected as follows: E. Ensign, president; Walter C. Frost, vice president; George M. Bryson, secretary-treasurer; John B. Stephen, Charles M. Sherman, Dr. W. F. Martin.

### COLORADO CITY NEWS NOTES

Johnston, Dentist, exchange Bank Bldg.

Douglas Fine Chocolates for those who care at C. M. Sherman.

The council No. 10, Degree of Peacemakers, will give a high five to the public in Redmen hall next Saturday evening. The public is invited.

All members of the Ladies Nest of Owls are requested to attend a meeting tonight, as business of importance will be transacted.

A defective flue yesterday caused a small blaze on the roof of Jack Diamond's home, corner Fifth and Main streets, but Diamond put it out before any damage was done.

The ladies of the Congregational church will serve luncheon in the kitchen of the church tomorrow afternoon from 3 to 4 o'clock. The public is invited.

The Woman's guild of the Church of the Good Shepherd will give a Japanese tea in the parish house tomorrow afternoon. The room will be decorated in Japanese fashion, and the tea will be served Japanese style. The public is invited.

### Deaths and Funerals

Mary E. Draper died at her home, 1821 Grant avenue, yesterday morning. She is survived by a husband and daughter. The funeral will be held from the undertaking rooms of Fleming & Patterson this afternoon at 2 o'clock, the Rev. James H. Franklin officiating.

Word has been received here of the death of Mrs. James S. Gibson, formerly of this city, but late of Omaha, Neb. Mrs. Gibson is survived by one sister, Miss Dora Harney, and two nieces, Mrs. Waterman and Mrs. Hamilton, better known here as the Misses Edna and Norma Harney, all of Omaha.

## ROYAL WELSH LADIES CHOIR HERE TONIGHT

Musicians of Colorado Springs realize that tomorrow night, at the concert of the Royal Welsh Ladies choir in the First Presbyterian church, there will be afforded one of the greatest musical treats ever offered in this city, and they have arranged to attend the concert in numbers.

Madame Hughes-Thomas, the conductor of this internationally famous choir of Welsh singers, has arranged an excellent program for the concert. It is a program that will show the diversity of the repertoire and the versatility of the choir, and a program that will appeal to all. Many have thought that the Welsh sing only in Welsh, but their music is not sounded merely in consonance. The Welsh singers of this choir sing in six different languages and their program, as announced here, indicates their versatility in this line as well as their musical ability. The program follows:

### Part I.

Part Songs—  
(a) "Harlech".....Gwent  
(b) "The Fair Hills of Ebor".....Gwent  
Song—"The Fair Hills of Ebor".....Needham  
Miss Beatrice Langford.  
Duet—"Quis Est Homo".....Rossini  
Misses Ida Owen and Megan Harries.  
Part Songs—  
(a) "Deryn Pur" (The Gentle Bird).....Evans  
(b) "Clychau Aberdyfi" (The Bells of Aberdyfi).....Evans  
The Choir.  
Song—"There's a Land".....Slaughter  
Miss Megan Harries.  
Song—"Feldwch a Ddwydd".....Megan Harries  
(a) "Gypsy Life".....Schumann  
(b) "Snow".....Elgar  
The Choir.

### Part II.

Operatic Scene—"Miserere," from "Il Trovatore".....Verdi  
Misses Ida Owen and Alice Lewis and the Choir.  
Duet—"The Tranquil Night".....Glover  
Misses Beatrice Langford and Megan Harries.  
Song—"Lo, Hear the Gentle Lark".....Sullivan  
Miss Ida Owen.  
(a) "Llwyn On".....Welsh  
(b) "Can Cwsg" (Lullaby).....Welsh  
The Choir.  
Song—"Killarney".....Hughes  
Miss Flossie Dure and the Choir.  
Song—"My Ain Folk".....Lemon  
Miss Alice Lewis.  
Part Song—Medley, "American airs—  
"Hail Wlad y Nhadau" (Land of My Fathers).....James  
"Star Spangled Banner."

## ORDINANCE UP AGAIN

An attempt will be made at today's session of the city council to amend the gasoline ordinance. As planned the amendment will give the commissioners the right to grant special permits to garages and other users of gasoline, providing the fire risk in each case justifies. If introduced the amendment will be fought, as some of the members of the council favor the existing ordinance. Those favoring the proposed amendment point out that the present ordinance would force several of the garages and other motorcycle establishments to move or make alterations at a great expense.

## THIS CITY AS HEAVEN

Another one of those mysteries mislabeled postmarked Colorado Springs, but purporting to have been written in heaven, has been received by a public official. This time it is to Mayor Speer of Denver, instead of Postmaster General Hitchcock. The writer, who signs himself "King of Heaven," insists that Mayor Speer make a "City of Daylight" out of Denver, order all places of amusement closed at night, keep the good citizens and bad at home, and thereby save the city's electric light bills. The writer also recommends the payment of \$5 a week to all women of the city who are out of employment.

## SUPREME COURT TAKES UP FIGHT OF BALDWIN HEIRS

SAN FRANCISCO, Jan. 16.—The fight for the millions of the late E. J. (Lucky) Baldwin began today in the supreme court of California when attorneys for Lillian Ashley Turnbull appealed from the decision of the superior court of Los Angeles that divided her daughter, Beatrice Anita, a share of the late turkman's fortune. The claim is based upon the allegation that the mother was the common law wife of the horseman. Attorneys for the Baldwin heirs contend that Baldwin could have had no common law wife as he had a wife living at the time.

**Baby's Voice**

Every woman's heart responds to the charm and sweetness of Baby's voice, because nature intended her for motherhood. But, with the loving nature of a mother shrinks from the ordeal because such a time is regarded as a period of suffering and danger. Women who use Mother's Friend are saved much discomfort and suffering, and their systems, being thoroughly prepared by this great remedy, are in a healthy condition to meet the time with the least possible suffering and danger. Mother's Friend is recommended only for the relief and comfort of expectant mother; it is in no sense a remedy for various ills, but its many years of success, and the thousands of endorsements received from women who have used it are a guarantee of the benefit to be derived from its use. This remedy does not accomplish wonder, but simply assists nature to perfect its work. Mother's Friend allays nausea, prevents taking of the breasts, and in every way contributes to strong, healthy motherhood. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers.

## FORMER FIANCEE OF RICHESON WAS HERE

Affidavit Before Springs Notary Loaned Money to Minister Now Condemned

Another blot upon the character and reputation of Clarence V. T. Richeson, the minister who is condemned to death for the murder of his sweetheart, Avis Linnell of Lyons, Mass., was uncovered yesterday in Colorado Springs, when an affidavit made two years ago by Miss Feltz was brought to light. In the affidavit, Miss Feltz, who is a daughter of a Baptist minister of Missouri, sets forth the fact of her engagement to Richeson and details the manner in which he secured about \$100 from her.

According to the affidavit, Miss Feltz met Richeson while he was a student at William Jewell college, Liberty, Mo. From time to time she advanced him money so that he might continue his college course, relying upon the engagement as sufficient consideration. Three years ago, while teaching school in Kansas City, Miss Feltz's health began to fail, and upon advice of physicians she came to Colorado Springs, February 18, 1910. Miss Feltz walked into L. P. Lawrence's office carrying with her a written statement which she desired made in the form of an affidavit. She gave no reasons, and the statement was made and sworn to without further question.

While in this city Miss Feltz lived with Mr. and Mrs. John Moffat, Cheyenne road. She is now in Salt Lake City, and it was upon advice from her that the Massachusetts authorities secured a copy of the affidavit from Lawton. The affidavit is as follows:

The Affidavit:  
On the 29th of December, 1908, I became engaged to Mr. Clarence V. T. Richeson, who was then a student in William Jewell college, Liberty, Missouri. In the fall of 1904, it became necessary for him to leave school and go to work or to borrow some money. As my grandfather, who was then living and given me a small sum, I insisted that Mr. Richeson use this; he did and remained in school. In December my grandfather died, leaving me as my share of his estate \$666.67. In the spring of 1905 I divided part of this with Mr. Richeson, who in 1906 left the college and in the summer of 1906 I was employed to teach in the schools of Kansas City, Mo. Just before Mr. Richeson left, in the early part of September, 1906, for the Newton Theological Institute, I lent him money. Up to this time I had advanced \$700 (Seven Hundred Dollars). On November 24, he wrote asking for \$75.00. I could not furnish that at that time, but in my reply to another request made in the spring of 1908 I sent him some money. On August 1st, 1908, Mr. Richeson wrote that he would start to Kansas City the 24th of that month. Nothing more was heard until the 28th, and on the morning of the 29th of August, 1908, I telegraphed to him. That afternoon he came to see me, having arrived in the city the evening before. On the following Tuesday he left Kansas City to hold a meeting. I have not seen him since then. On February 21st, 1909, I told Dr. F. C. McConnell, then pastor of Calvary church, Kansas City, Mo., how in Washington, that I had lent money to Mr. Richeson to help him through school.

Became Ill.  
In the spring of 1909, while teaching, I contracted the illness, which settled in my throat. During the following summer I was under the treatment of several throat specialists, among whom were Dr. James H. Logan, of 1206 Wyandotte avenue, Kansas City, Mo., and Dr. Wyatt of the same address. On September 7th, 1909, I began teaching and taught four days; the following week I was not able to teach, and on September 16th, under the care of Dr. Charles Nickerson of St. Washington, Mo., I entered the Baptist hospital at Sheffield, Mo., ill with pneumonia. Mr. Richeson, having been notified of my illness, arranged to pay some of the money I owed me so that I could meet my expenses. On September 25th, 1909, I left the hospital and returned to the home of Mr. Oscar Westheffer, where I boarded. Dr. Nickerson thought that I could return to school the 1st of November but when the time came I was not able and the throat specialist, Dr. Logan, told me in order to regain my health I must spend the winter in a higher altitude, and advised Colorado. Mr. Richeson arranged to send me some more money for my expenses out here. The weather grew worse. I tended to remain in Missouri longer, and the letter containing the money was delayed. I sent a message—he replied, "Letter following." Before it came the one already mailed reached me. On December 8th, 1909, I started and arrived in Colorado Springs, December 9th, 1909.

## WILL ISSUE BULLETIN

One of the most important measures adopted at the session of the Colorado Association of Commercial Secretaries, held at Greeley last Monday, was the decision that monthly bulletins be issued by the various secretaries to members of the association. It is thought that the different commercial clubs and civic organizations will be kept in closer touch with each other by such a bulletin, resulting in much favorable advertising to every part of Colorado.

Secretary Henderson, who attended the meeting, returned here last night.

## WINTER MONTHS ARE VERY TRYING ON THE COMPLEXION

How a Simple Greaseless Cream Will Protect the Skin From Wind and Cold.

Cold weather months are troublesome times for any complexion, and unless proper care is taken the skin will soon chap and become rough and scaly. A cerol cream will prevent as well as overcome this condition, and its use insures a richness and delicacy of tint truly wonderful. To make this greaseless cold cream dissolve two ounces cerol in a scant pint boiling water, stirring until smooth and thick. Plenty of this should be gently massaged into the skin, using a light, rotary movement with the tips of the fingers.

## DISTRESS IN STOMACH AND DYSPEPSIA GO

A Little Diapiesin Makes Your Out-of-Order Stomach Feel Fine in Five Minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, this is indigestion.

A full case of Pape's Diapiesin costs your out-of-order stomach, and leaves only 50 cents and will thoroughly cure sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these recent cases, then you will understand why Dyspeptic trouble of all kinds must go, and why Diapiesin always relieves sour, out-of-order stomachs or indigestion in five minutes. Diapiesin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapiesin cranks, as some people will call them, but you will be cranks about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.

Get some Pape's Diapiesin now, this minute, and forever rid yourself of Stomach Trouble and Indigestion.

## EL PASO ADVANCES

Interest in mining stocks listed on the exchange continues unusually active. More than 86,000 shares were sold yesterday, with El Paso taking the lead so far as advance in price is concerned. El Paso sold 8,100 shares at from 74 to 75 1/2 cents a share. Trading in El Paso was good, 5,000 shares selling at 69 to 69 1/2. The interest in prospects during the last two days has caused more or less conjecture.

## WILL OPEN NATIONAL HOME HERE SHORTLY

Preparations are being made to formally open and dedicate the National Preachers home, 915 East Harrison street at an early date.

This building was obtained by the African Methodist Episcopal church through the efforts of the Rev. J. W. Braxton, at that time pastor of Payne chapel, and who secured a donation of one-half block of ground from the Colorado Springs company through its late president, General William Palmer, for the erection of a home for superannuated and infirm ministers.

This half block afterwards was exchanged for the Deacons' hospital property, the management paying a cash difference of \$3,700. Possession was not obtained until July and the secretary, the Rev. Mr. Braxton has been busy looking after the interior decorations and furnishings, also to the collection of subscriptions from the ministers in the Fifth Episcopal district. Fifteen hundred dollars has been collected from them, and more than \$1,500 has been expended. A few friends have assisted.

A number of the rooms have been renovated, and eight bed rooms and the annex to the dining room have been newly furnished. There are still 14 rooms to be furnished, and it is the plan to have this accomplished by the time of the opening. The donations so far have been entirely voluntary, coming from individuals, clubs and societies and a full report will be made at the dedication. The date will be fixed by the bishop of the district. While the home will be owned, controlled and maintained by the African Methodist Episcopal church, the inmates will not be confined to that denomination. Provision will be made that others may enjoy its benefits.

The general conference of the church, which meets in Kansas City, Mo., in May, will make ample provision for its support. It is the purpose of the secretary to have it furnished and reported free from debt by that time.

FOR SALE—AUTO DELIVERY WAGON, 25-H. P., \$350; AIR COOLED, GOOD CONDITION. HASETT IRON WORKS CO.

## No Change in Tourist Rates Next Summer

It was announced yesterday that the contemplated change in summer tourist rates to Colorado will not be made. It was proposed to abolish tourist rates and sell tickets to Colorado points on a even basis. Upon further consultation among railway officials, however, it was deemed inadvisable to make the proposed change, and rates will remain the same as last summer.

## MINING MEN HERE

Are Registered at Antlers  
T. E. Thomas and his private secretary, M. H. Albertson of the Junta Gold Mining and Milling Company and The Jun Crow Gold Mining and Milling Company of Telluride, Colo., Mr. Thomas is offering for sale a block of stock in the companies for the purpose of procuring funds to erect an aerial tramway from the mines to the Bear Creek mill, having a milling capacity of 350 tons per day. The public are invited to call and see the samples of high grade ore taken out of the mines and to make a thorough investigation as to the merits of the properties.

## ROBERT MANTILL WEUS

Robert Mantell yesterday married one of his company, Miss Genevieve Hamper. The company played in Pueblo last night, but early in the afternoon Mantell hustled himself and bride-to-be to the county court and they were married. The affair was supposed to be secret, and every effort was made to keep the marriage unknown to other members of the company. But it is said there are too many women in the east. Mantell appeared here Monday night in "Macbeth." His bride is a resident of Detroit.

Autoist Drives to Curb to Avoid Motorcyclist and Is Seriously Hurt

While trying to avoid running down an unknown motorcyclist, Henry Evers, 1221 North Cascade avenue, drove his automobile into the curb at Cascade avenue and San Rafael street yesterday afternoon at about 2:10 o'clock. Evers' right leg was broken in several places, at the ankle joint, and the automobile was smashed. He was removed to his home in Carrington's ambulance, and was attended by Dr. W. F. Martin. The physician says that it is doubtful if Mr. Evers will regain the full use of his leg.

# Wilbur's Advance Sale of Waists

Now the best time to lay in a supply for the future.

Included in the above prices are a number of this season's waists which are being closed out at reductions in some cases amounting to half the original prices. All winter waists of the better class on sale this week at one-quarter to one-half less than regular prices.

## Undermislins

slightly mussed in showing during our January sale just closed. A big table of all kinds of garments in no way damaged, but which we do not wish to return to stock. These range in price from 65c to \$10.00 each; on sale this week, 33c to \$5.00. Half Price or just.

## All Suits

dress, costumes and cloth coats selling at HALF PRICE this week. All furs and fur coats at one-third less than usual.

## MUCH INTEREST IN STREET CAR MEN'S BALL FRIDAY

The publicity committee in charge of the ball to be given at Majestic hall Friday night by Division No. 19, Amalgamated Association of Street and Electric Railway Employees of America, reports a large sale of advance tickets for the event, which promises to be the most enjoyable in the history of the organization. Pink's orchestra has been engaged. The dance will continue until 1 o'clock, and special cars will be sent out to take the dancers home. The affair will celebrate the nineteenth anniversary of Division No. 19, and falls on January 18. The Colorado Springs organization is the only one of its kind in the state, and is the oldest in the national order.

## MARRIAGE AND DIVORCE

IN the County Court last Monday, a child of seventeen years was granted a divorce from his wife, of twenty, on the "technical" ground of cruelty. It appears from the evidence that the father of the boy persuaded him to marry the girl, who was not unwilling, in the belief that because she was a good housekeeper for himself she would make a good wife for his son. They were married June 25, 1911 less than seven months ago. And now they are divorced. The husband that was three years the junior of the wife that was, and to the everlasting credit of the mother of the wife be it said that she opposed the match.

To say that this sort of thing is disgraceful is putting it altogether too mildly. It is absolutely a disgrace to American civilization. The reader who doubts this is invited to consider the divorce record of El Paso County in the year recently ended.

In 1911, 546 couples were granted marriage licenses in El Paso County. In the same period 162 couples were divorced. In other words, the ratio of divorce to marriage was one to three and a half. This means that of every four couples married in El Paso County, one couple will finish in the divorce court.

Statistics embracing the entire nation show conditions not essentially dissimilar. It is the accepted thing among all classes of American society to resort to the divorce courts for relief from the most trivial sorts of domestic woe. In the United States no less than 945,633 divorces were granted in the period from 1887 to 1906, which means a rate of 73 per 100,000 of the population, as contrasted with a rate of 38 per 100,000 for an equal period immediately preceding. Statistics compiled by the Census Bureau show that almost exactly two-thirds of the divorces were granted to the wife, the reason "in part, at least" being that as a usual thing the wife has a legal ground for divorce more frequently than the husband, without respect to which is really responsible for the domestic unhappiness.

A further comparison of divorce records for the last ten years shows that, with the sole exception of Japan, the United States stands at the head of civilized nations with an annual average of 73 divorces per 100,000 of the population. Contrast this disgraceful record with that of England, with two divorces per 100,000 of the population, with only one. It is true that the divorce laws of these countries are much more stringent than ours, and force many people to remain under the restrictions of the marriage tie who in this country would be granted legal separation without question.

It probably is true that the real remedy is not so likely to be found in the revision of the divorce laws and the adoption of a uniform law by all of the states, as in the adoption of more stringent marriage laws. In this country whenever a man and a woman or a boy and a girl decide that they want to get married they can do it forthwith without difficulty. In European countries the case is very different; for they must comply with legal provisions the effect of which is to insure plenty of forethought. There are no authoritative statistics on the subject, but if there were they would probably show that a very large percentage of American divorces are directly traceable to marriages contracted in haste and repented at leisure. The one granted in the County Court yesterday is of this class.

## FEDERAL CONTROL OF TELEGRAPHS

MR. HITCHCOCK, the Postmaster-General improves on acquaintance. He became prominent about four years ago when placed in charge of the Taft presidential boom, after Mr. Arthur I. Vorys of Ohio had failed to nurture it properly. Mr. Hitchcock was "practical" in the Rooseveltian sense, and he soon instilled

life and vigor into a declining boomlet. He was rewarded with a cabinet job—the one most to his liking because it placed the most patronage at his bestowal—the postmaster-generalship. Incidentally he was made chairman of the Republican National Committee. In both positions he displayed an extraordinary capacity as a political manager, but it must be admitted that the country entertained grave doubts as to his ability to administer the postal service efficiently.

For two years Hitchcock sawed wood, and at the end of that time he was able to announce the end of the time-honored postal deficit. Almost since the beginning of the American republic the post office department has shown an annual shortage running high into the millions. Without seriously impairing the efficiency of the service Hitchcock was able to wipe out this deficit and show a small profit in its stead. Whatever preconceived opinions one may have of a public official, it must be admitted that a performance of this sort inspires respect. At least he succeeded in doing what all of his predecessors had tried to do, but without avail.

Today Mr. Hitchcock startles the country with a recommendation "that it would be well for the government to buy the telegraph lines and incorporate them in the Post Office system." It is said that this recommendation was submitted to the President nearly a year ago and laid aside for future disposal. The fact that it is now made public suggests that Mr. Taft is not wholly averse to the idea, or at least, that he is willing to place it before the country for the thorough discussion which is certain to follow its announcement.

## GOVERNMENT OWNERSHIP IN EUROPE

Government ownership of telegraph lines is not a brand-new idea by any means. In England and, we believe, nearly all other European countries, it has prevailed from the beginning. Whether or not government operation of telegraphs has been financially profitable is of less importance than the question of efficient administration. As a parallel it may be noted that the United States Government does not consider as its primary aim the earning of a profit in the conduct of the Post Office Department, although it is anxious to do so if the profit can be made without impairing the efficiency of the service. The British government has a similar aim in the conduct of its postal department, which includes all telegraph lines. In each case the first consideration is to give the people the best service possible; if a balance remains in the treasury it is regarded as "velvet."

Whether or not it would be wise for the United States Government to adopt the recommendation of the Postmaster-General is a thing that can be determined only after careful consideration based on a thorough knowledge of all facts bearing on the case. It may be shown that the project is wholly impracticable. Or the more reasonable conclusion may be that the telegraph service as an adjunct of the postal service should be publicly owned and conducted without regard to possible profit or loss. But the fact that the telegraph service, as privately owned, has been tremendously profitable to its stockholders, suggests that there would be slight probability of serious loss if capably managed under government ownership.

**NEAR TO NATURE**  
JUST IN TIME.  
From the Janesville Gazette.

Mrs. Anna Stark arrived home in time Wednesday evening to find her husband preparing supper.

**WOULDN'T THIS MAKE YOU MONALISA?**  
From the New York Herald.

It was a crowd such as only New York can assemble—bankers, brokers, actors, sportsmen, merchants, soubrettes, soldiers, sailors and just plain human beings. Bankers, leaders, men, and talked cheerfully with bartender and bartender permitted gamblers to borrow a light from them without setting off a fire.

**AN ORGY AND A HANG-OVER.**  
Castleton Correspondence, Hartford, Republican.

A most potent factor in relieving our passion for an all-around jolly good time, was an event transpiring at the town hall last Friday evening, when a crowd of care-free young individuals assembled therein, this acknowledged receipt of invitations for a "cobbler" party, issued by some young ladies a few days previously. The former part of the evening was devoted to the revival of old-time favorite amusements, and as the hours wore on other entertainments employed our attention. In due season partners were secured by the cobbler system and dainty refreshments provided the company. Then the night being far spent, we quit these scenes of unrestrained pleasure for that more restful retreat, which Payne termed the best place on earth, and with profuse thanks owing our benefactors we today find chiseled upon the tablets of memory no fainter recollection of the evening than golden recollections of the evening the inscription begetting memory of September 22, 1911.

**FROM OTHER PENS**  
WHAT IS SOCIALISM?  
Politely but severely the New York Times disapproves of the position taken by Collier's on the McNamara. Our contemporary also represents the point of view usually called "conservative." It says:

lined to the Haywoods, Debses and Emma Goldman. Collier's Weekly had a note of comment on the failure of the Tennessee legislature to pass an employers' liability bill, which was due, it infers, to the laud of free passes to legislators by the railroads. The railroad pass has been abolished in various states and it is illegal in interstate transportation, but what Collier's Weekly permits itself to call "labor" is threatening to use dynamite everywhere. Many of the state legislatures have been so largely influenced by the supposed "socialistic" tendencies of their constituents that our form of representative government has been endangered.

Of course, the pass is but one of the weapons of the privileged class, and was given as an illustration. For Haywood, Collier's has perhaps a little respect as the "Times" has: as little as we have for Messrs. Parry, Kirby, Post and Otis. The last sentence of the opinion quoted gives a view which, although often repeated, fills us with fresh astonishment. Whence this alarm? What is "Socialistic"? Are postoffices, banks, roads, jails, hospitals, courts, irrigation projects, state and national boards of health, fire departments, building departments, immigration commissions, postal savings banks, public utility commissions, national telegraph and telephone lines in Porto Rico and Alaska, government slaughter houses in the Philippines, federal steamships to Panama, public waterworks which now exist in about 60 per cent of our towns, including 41 out of the 50 largest cities? Just when does the cooperative activity of the people earn the dread name? But, perhaps, what alarms our safe and sane neighbor and forces it to cry "Socialism," is the progress of direct government. The threat to our institutions lies in allowing legislators to consider the wishes of electors. A conservative friend, you will not permanently guide the American public by desiring to be its nurse. Walk alone it can find will. Most Socialism in the United States, like insolvency, and like progressiveness, is merely the desire to nourish virtues surely old-fashioned enough to be safe—honesty, unselfishness, justice, even, even that love which St. Paul called greater even than faith and hope.

**THE BLUNDER OF HIS LIFE.**  
From the Rochester Herald.

And yet the colonel, who never made a mistake, ought to be willing to confess that, from his point of view, he made a mistake in turning the office over to "W.D."

**STEPS TOWARD REDEMPTION.**  
From the Louisville Courier-Journal.

"Chicago's the wickedest city in the world," says a minister. "Chicago gets the next Republican convention," says a dispatch. Well, why not?

**Sunflower Philosophy**  
He had tried a thousand capers seeking to embellish his name in the magazines, and papers, but he got no grip on fame. As a bard he made endeavor to achieve a large renown; people said, his verse was clever, but the monthlies turned THE FIGHT it down. In the air he went a-sail for fame, but his flights were unavailing, for some other won the prize. Many doodads he invented hoping fame would come his way, and the welkin of his dented, but his speeches baled no hay. Fortune seemed unkind and brutal, all the world was lark and dour; all the stunts he tried were futile, and his soul was turning sour. While he toiled, dejected, drooping, tired and weary of the game, others teetered past, kerwhoooping, to the shining heights of fame. Then this most forlorn of critters, by some kindly spirit inspired, recommended Beeswax Bitters, and secured the fame desired. Now you can't pick up a journal but you'll see his rigmorale, how he suffered pains infernal till the bitters made him whole.

**THE DAILY CHAT**  
BY RUTH CAMERON

"For the great men are modest, because they continually compare themselves, not with other men, but with that idea of the perfect which they have before their minds."—Milton.

It has always seemed to me that the blind bard might well have added that the great men were great for the same reason that they were modest. I want to tell you today a little story about a certain great woman I have had the privilege of knowing.

I call her "great" and perhaps you are waiting to hear some famous name, but I don't use the term in just that way. For she has "spent herself in channels which had no great name on earth." But, she is great just the same, even if nobody knows it.

This woman, who is now about fifty years old, has brought up a family of seven children. And not only has she seen one of the finest of house mothers to them; but she has also frequently been the financial head of the family. She has been in several lines of work, literary and otherwise; and she says, today, proudly and with absolute truth, "so far, I have never failed."

She has at different times earned a salary of over twenty-five hundred a year, which, if you will recall, attitudes I have formerly given you, is over twice the wage of the average man. Furthermore, she did not have a college course or any specific training—only an ordinary high-school education.

Of course, the natural explanation of such a career is that she has an unusually good mind. Yes, she has that. But I don't think it is chiefly that which has made her success possible. There are many qualities which have helped—a splendid energy, an unusual definiteness and practicality, a never-flagging perseverance, and an agreeable personality, have all played their parts. But the quality which has had the most to do with making this woman successful in whatever she turned her hand to, I think, is just this, "a passion for perfection."

## The Great Conflict A Half Century Ago Today

JANUARY 17, 1862

The Fortification bill, appropriating an aggregate of \$5,980,000, passed the United States house of representatives. Among the appropriations was \$100,000 for Fort Knox, on Penobscot river; \$100,000 for a fort on Hog Island, in the harbor of Portland; \$55,000 for Fort Warren in Boston harbor, and \$100,000 for the fort in New Bedford harbor. The appropriation also included the following, for 1862: \$50,000 each for Forts Knox, Hog Island, Winthrop, New Bedford and Adams at Newport. The United States steamer Connecticut overhauled and seized a schooner off Jupiter Inlet on the Florida coast, which proved to be the Emma, that had run the blockade at Apalachicola the previous November. She had been at Havana with a cargo of cotton. The captain denied all knowledge of the intentions of the owners; but the vessel was made a prize on the strength of papers found in her.

Navigation on the Mississippi was entirely suspended by a gorge of ice that formed 20 miles below St. Louis. One hundred and fifty prisoners, released by the Confederates from the hospital in Richmond were brought to Fort Monroe by Dr. Hightenbohm. They had all been wounded and were convalescent.

A number of Confederate officers, prisoners at Fort Monroe, were returned under a flag of truce. Cedar Keys, Florida, was captured by the Federals. (Copyright, 1912, by W. G. Chapman.)

## Disease and Its Cure

By E. J. WOLFF.

**WEAK CHILDREN**  
Weakness in children is abnormal and unnatural. There is always some cause for the condition, and as a rule the cause can be found.

Nature's plan is to give the growing child a goodly supply of fat to aid in nourishing its tissues, and to maintain the degree of warmth required by young people. The greatest amount of exercise will not alone reduce this quantity of fat in children. Lack of proper food or of proper surroundings will do more than any amount of exercise to reduce the store of fat that nature has provided for her little ones.

Weak children, nearly always are thin children. The cause had better be sought in the diet and the habits of the child. Because the little young life is tender, it is often cruelty of the worst sort to heed the advice of neighbors in the treatment of weak children.

A doctor who has made a careful study of children's ailments is often puzzled to discover the exact cause of weakness. So it is plain that no one should attempt to prescribe for the condition except a competent doctor.

Weak children may be stunted mentally, if too much is demanded of them. It is best, therefore, to permit them to stay away from school for some time, rather than to demand too much of the weakened system.

**NEW BOOK IS OF VALUE TO SCHOOL AUTHORITIES**

DENVER, Jan. 16.—The state superintendent of public instruction has recently issued a new book, "School Laws Annotated," that is meeting with school authorities' favor. It is probably the most complete work of its kind yet published.

It deals with every phase of school life in this state pertaining to public instruction, giving comparisons of the public schools of Colorado with those of other states—in all 467 pages of the school laws of the state, including instructions for boys and girls.

The amount of the public school income fund apportioned for the next six months is \$174,696.36. Denver's share being the largest, with \$1,036.22, while the smallest, Jackson county, is \$180.44.

Rubber boots are now made with a leather inner heel, which greatly increases the boot's period of usefulness.

Canaries have been known to live 21 years.

## THIRTY YEARS AGO TODAY

January 17, 1882.

George Stetzel, a young man who had had charge of the Newton ranch, south of the city, was found dead on his bed at the ranch by Bert Newton.

Charles Hedding, a freight brakeman, had his hand badly smashed while coupling cars. His thumb had to be amputated.

The partitions and other fixtures were being placed in the new postoffice building in the Weir block on South Tejon street.

The W. S. Jackson Hose company elected the following officers for the ensuing year: Foreman, William Harrison; first assistant, F. D. Sandford; second assistant, Will C. Curtis; secretary and treasurer, F. A. Perkins.

**Widows' Champions**  
[Copyrighted, 1912, by Laura Jean Libbey.]

We all know how gallantly the whole world of men champions the cause of the sweet, pensive widow. She has no more ardent admirer than the tot of her own family. Dear me, what ingenious creatures they are to be sure. They never lose a chance of alighting her praises. The cunning little ones seem to realize intuitively that home is not home when there is no man sitting at the head of the table.

It is the widow's lot who generally hall with delicate the male visitor who makes a fuss over them and listens to their prattle, which, somehow, always turns on "mamma." They are precocious children, and not for worlds would a mother leave them out of her sight or hearing if she but realized the "secrets told out of school" that they were prattling into strangers' ears about their sweet, pretty mamma—how nice she is.

Many a widow who has declared time and time again that she never will lay aside her widow's weeds has been led to change her mind owing to the wiles of an innocent little cherub who aided Cupid in patching up her heart. There are widows who leave their children home when they go off pleasing. Others consider that they would have no pleasures unless their darlings were with them.

If the widow hies herself to some restful resort in the sunny south where the flowers are blooming instead of where the snows are blowing, it is always for the little ones' sake.

Before the first day is over and ere their trunks are well unpacked baby has made the acquaintance of every one in and about the hotel. Somehow he seems to have a predilection for bachelors and widowers. He is just such a dear little fellow as would warm the heart of any man.

When they ask the boy about his father and mother he is quick to answer that he has only a mamma left now. He points his chubby finger to a stender figure in black at the foot of the piazza who sits there bending over a book.

"That's mamma," he lisps, "with the sunshine in her hair. Isn't she pretty?" It is through this little champion that they become interested in her. That is the commencement of a second romance in a widow's life. She holds out against his entreaties. But when her little child puts his arms about her neck and tells her how much he loves him her heart cannot help being softened into more than kindly liking.

It is said that children are love's own messengers. They certainly do make good their title whenever and wherever it is possible. The widow who has no more ardent admirer than the tot of her own family, dear me, what ingenious creatures they are to be sure. They never lose a chance of alighting her praises. The cunning little ones seem to realize intuitively that home is not home when there is no man sitting at the head of the table.

## CUBS' TRAINING PERIOD IN SOUTHLAND IS SHORTENED

## SMALL CHANCE FOR \$30,000 FOR ARTHUR

By W. W. NAUGHTON.  
SAN FRANCISCO, Jan. 16.—That Jack Johnson and Jim Flynn consider themselves matched is gathered from the fact that after attaching their names to a fight agreement in a Chicago hotel they posed, "side by side, with pens in their hands, for the benefit of the newspaper photographers."

It may be that this is the up-to-date way of clinching a pugilistic contract. A boxer who wants to deny responsibility may claim that his signature to articles is a forgery, but if he poses pen in hand and the picture is published it should be harder for him to prove an alibi.

This sound, like testing, however, and the Flynn-Johnson match is a serious matter. The only confusing thing about it is that a few sensationalists seem to have been overlooked. No definite information is forthcoming as to when the men will fight, where they will fight or where the purse money is to come from. In every other respect the agreement appears to be all right.

Johnson is to receive \$30,000—when he gets it. Unless someone with Andrew Carnegie attributes is behind the movement, it is not easy to figure where Johnson's honorarium is coming from. There is nothing about a Johnson-Flynn prospect to suggest that the amount will be taken in at the gate.

However, it may not always tell. The public, whimsical and may warm up to the Flynn-Johnson venture when least expected.

Johnson displayed trepidation when he heard that Flynn intended boxing Al Palmer in the interim. Champion Jack implied the Pueblo Freeman to do nothing of the kind. Whatever chance Johnson may have of raking in that \$30,000 would surely disappear if Palmer-treated-Flynn-the-way he treated Kaufman, and such being the case, there was reason for Johnson's concern in the connection.

By IRVING VAUGHAN.  
CHICAGO, Jan. 16.—An elaborate program has been outlined for Frank Chance & Co. during the annual spring jaunt to the southland, twenty-seven exhibition games being on the roster as outlined at present. President Murphy, cub boss, has blossomed forth with the seven-day money, saying that the proceedings will be staged with the get-away on March 2, and continue with the training and barnstorming stunts up to April 11, when the cubs open the regular season at Cincinnati as arch enemies of Hank O'Day's redlegs.

The jaunt as outlined for the pennant-seekers this spring covers most of the principal cities of the south. Duty will naturally start with the pre-conditioning period at West Baden, the squad heading for the Hoosier resort after reporting here on March 1. Work at the springs will be the order for four days, after which the trip will continue toward the southland, the athletes arriving in New Orleans on the night of March 8, prepared to commence the real siege under the burning southern sun.

This year the stay at Crescent City has been shortened by fully a week and this time will be devoted to gathering in a few stray coins in additional exhibition games. Last spring and previously Chance detained his Toppers at New Orleans for a period of two weeks and even more, but the cub owners have fallen in line with the policy which will in all probability become general with the majors in a few more years. Long and tiresome trips are slipping into the discard. Exhibition battles are now considered good substitutes for the customary "fudge hitting" type and general limbering-up and in addition they help materially in curtailing the expense account. Overconditioning of the athletes is the cause for the change.

The first real game of the year 1917 will be played March 10. This will follow one day of practice at the Pelican grounds in New Orleans. Grinding drill under the leadership of Chance and a few more games will be the order for the remainder of the week. The last club in the New Orleans date being scheduled for March 17, the date on which the cubs commence their circuitous trek back toward the northland.

## ON GRAND CIRCUIT RACES FOR GOTHAM

NEW YORK, Jan. 16.—By action of the Brooklyn Jockey club today New York will not get the grand circuit trotting meeting promised for next summer, August 19-24.

Today the Brooklyn Jockey club notified the grand circuit stewards that it withdrew its application for the dates named. The reason given was that the law-making owners of tracks personally responsible for gambling on their premises would apply with equal force to a trotting meeting as to a running race meet. The Salem track, accordingly, will get the dates. There has been a complete cessation of racing on tracks in the Metropolitan circuit since a short time after the directors' liability became effective.

## BASKETBALL SQUAD TO BEGIN SCHEDULE

By IRVING BRUCE.

Captain Taylor and the four other athletes that compose the Terror basketball quintet, are now ready to give battle to the leading teams of the state. Coach Erps has had his five working faithfully for the last two months, and in that time he has developed the fastest basketball machine that has ever represented the Terror. This was very clearly shown last Saturday afternoon when the Terror ran all over the team from the East and Blind school by a score of 93 to 15. This game also showed the strong defensive work of the Terror guards, when they kept the deaf mutes from scoring but one basket in the second half.

The interscholastic season will be opened in earnest Saturday night, when the Terror meet the team representing the Colorado City High school at the Y. M. C. A. gymnasium. From that date on the Terror will have a string of games with the best teams in the state if their present plans materialize.

In Captain Taylor the Terror have one of the best guards in this section. When it comes to sticking with the forwards of the opposing teams and preventing them from shooting baskets Taylor is a class by himself. Taylor is also very adept at throwing baskets from a free throw. N. Holoman, who plays the opposite guard from Taylor, is one of the best men on the team when it comes to making accurate passes. It is Holoman who executes most of the long passes of the Terror that makes their team work so difficult to break up.

In Beless, Altman and Shadford the Terror have a string of forwards that are as good as the average high school forwards. Beless is able to shoot baskets from almost any angle. As soon as he learns to take a little more time it will take guards of the highest type to keep the Terror's score down. Altman and Shadford are as good if not better than the average forwards. Glazen and H. Holoman are holding down the center position. Both men are excellent all around players.

## BRUNSWICK SCORES

The Mueth Candy company five took the straight games from the Sanitary Dairy team in last night's bowling match on the Brunswick alleys. Here are the scores:

**SANITARY DAIRY.**  
Barnett ..... 191 148 167  
Swift ..... 168 147 129  
O'Connor ..... 147 126 121  
Drake ..... 122 139 143  
Litz ..... 138 182 156  
Total ..... 667 735 682

**MUEH CANDY CO.**  
Busbee ..... 148 179 170  
Reicher ..... 151 146 161  
Sing ..... 168 147 153  
McNulty ..... 24 128 123  
Redies ..... 161 163 173  
Total ..... 552 613 680

## CUBAN CUE ARTIST IS ATTRACTION AT CLUB

A big crowd of local billiard and pool enthusiasts was out last night to watch Alfredo De Oro, Cuban cue artist and former three-cushion billiard champion, in his exhibition at the El Paso club. William Stubbs, pool artist, who was also scheduled for an exhibition, was sick. Frank Quinby, Brunswick representative of Denver, appeared in his place.

De Oro and Quinby were matched in a 100-point straight pool game, the former winning by a score of 100 to 11. De Oro went by a score of 20 to 11 in a three-cushion billiard match with Quinby. In a game with Carrick Collins, 25 point pool, De Oro agreed to win 25 or no count against Collins, winning easily. De Oro gave a number of fancy exhibition shots. De Oro will remain in Colorado Springs one or two days, stopping at the Acacia hotel.

## KENTUCKY FUTURITY TO HAVE THREE DIVISIONS

LEXINGTON, Ky., Jan. 16.—The Kentucky Trotting Horse Breeders' association, through the action of its stockholders at the annual session, were today, accepted a membership in the grand circuit, and the next trotting horse race meeting here, which will be from October 8 to 19, will mark the close of the 1912 season on the "big ring."

It was also voted to change the Kentucky Futurity so that it will have three instead of two divisions for trotters, and that 3-year-olds will race under the two-in-three instead of the three-in-five plan. This change was closely contested and was won by a majority of only 26 shares. The action was later made unanimous.

The conditions of the Kentucky Futurity will provide \$5,000 for 3-year-old trotters, \$14,000 for 3-year-olds, \$2,000 for 3-year-old pacers and \$5,000 and a goldcup for 4-year-old trotters, making a total money value of \$26,000.

For Seabough, for several years catcher #10, the Nashville Southern league team is picked to manage Galveston in the Texas league next season.

Dailley ..... 149 150 138  
Totals ..... 728 784 750

## PUEBLO FANS INDIGNANT; ALI EGGE DOUBLE-CROSSING

PUEBLO, Jan. 16.—A largely attended meeting of indignant baseball fans was held here this afternoon to protest against the action of Frank Isbell in disposing of the Pueblo Western league baseball franchise to Wichita capitalists. A committee composed of G. H. Nickolls, president of the Pueblo Packing company; C. B. Collins, director of the First National bank; and C. C. Slaughter, cashier of the Mercantile National bank, was appointed to combat Isbell's trade and to carry the case to the courts if legal action is justified by the facts.

## RACE RESULTS

JUAREZ, Mex., Jan. 16.—Injury, running to his best, won the 100-yard race, seven furlongs, at Juarez today and in so doing clipped a fifth of a second off the track record. He stopped the distance in 1:24 2/5. The attendance was above the average and some fine racing was seen. The weather was cloudy and the track fast. Summary:

First race, 6 furlongs—Golden Ruby, 5 to 1; Minorette, 5 to 1; second, Orba Smile, 2 to 1; third, Time, 1:12 1/5.

Second race, one mile—Sona, 2 to 1; Mixprison, 12 to 1; second, Ben Uncas, 6 to 1; third, Time, 1:41 1/5.

Third race, 5 1/2 furlongs—Tourlet, 8 to 5; won; Manassah, 3 to 1; second, Sloman, 6 to 1; third, Time, 1:25 2/5.

Fourth race, 7 furlongs—Injury, 4 to 1; won; Arasse, 3 to 1; second, John Louis, 10 to 1; third, Time, 1:24 2/5.

Fifth race, 6 furlongs—Delany, 3 to 1; won; Ed Keck, 4 to 1; second, Angeleno, 6 to 1; third, Time, 1:12 1/5.

Sixth race, one mile—Juan, 5 to 1; won; Hanniss, 5 to 1; second, L. M. Eckert, 8 to 1; third, Time, 1:33.

## WATSON SCORES MANY AMATEUR GOLF CLUBS

NEW YORK, Jan. 16.—Officials of many well-known golf clubs throughout the country are severely arraigned in a document given out tonight by R. C. Watson, secretary of the United States Golf association, who gives warning that members of 60 clubs will be barred from competition in the amateur golf championship of the United States at Chicago next July unless they comply with the demands for handicap lists.

The Herculean task of compiling a national handicap list of golfers in order to reduce the entry list for the amateur championship to the best caliber had been undertaken by the organization, but the work is held up because of the failure of 60 clubs to send handily lists or to give any official notification as to whether they have any players eligible.

## RYAN SECURES TWO FALLS FROM GREELEY MAT MAN

Professor Tommy Ryan, local physical culture instructor, had an easy time of it in putting Sid Varney of Greeley to the mat in last night's contest at Cripple Creek before the members and friends of the Miners Athletic club. The first fall went to Ryan in four minutes, on a combination scissor and armbold. The local man got the third fall in seven minutes on a body hold.

There was a big following of Cripple Creek sports out to witness the match. A number of preliminary bouts, including a battle royal between five negroes, put the fans on keen edge for the main bout.

## MURPHY DEFEATS BEDELL

NEW YORK, Jan. 16.—Tommy Murphy of New York defeated Joe Bedell of Brooklyn, in a 10-round bout here tonight. Murphy clearly outfighth his opponent in the early rounds and floored him in the fourth. Bedell came back strongly in the latter part of the contest but the New Yorker managed to get the win.

## When You Go East

Why not arrange to go via New Orleans? Take your choice of rail lines from Denver to New Orleans (stop over there for a week or ten days if you like), thence in magnificent 10,600-ton Southern Pacific Steamships to New York. In this way you can turn a long, tedious trip into a delightful vacation—and all for

# \$60

including berth and meals on ship. Better make your arrangements now. If you want further information, write to Wm. K. McALLISTER, General Agent—Southern Pacific Company, 315 RAILWAY EXCHANGE BUILDING, DENVER, COLO.

## OVERLAND SCORES

The Pharmacists lost three straight games to the Douglass-Chappell bowlers on the Overland alleys last night. The contestants were bowling in the Commercial league championship series. The Ricklayers will play the Robbins five and the Portlanders are lined up against the Brunswick team tonight. Here are last night's scores:

**PHARMACEUTISTS.**

## CRIPPLE CREEK MINES

Special to The Gazette.  
CRIPPLE CREEK, Jan. 16.—Mica in block form has been encountered in the heading of the Roosevelt Deep Drainage tunnel, at this time well within the boundary line of the St. Thomas claim on the eastern slope of Beacon hill. The presence of mica in the solid granite formation is considered conclusive proof that the mineralized dikes with increasing gold content in the tunnel is progressing, notwithstanding the handicaps of water and working in blocky ground where timbering has been found necessary. Superintendent Fuller has made about seven feet a day for the first half of the month. The annual meeting of the tunnel company will be held in Colorado Springs this week, when full report will be made public by Engineer T. K. Connelman.

Ophir G. M. Co.  
Arthur Carnduff and company leasing on the Dead Pine on Battle mountain, owned by the Ophir Gold Mining company, loaded out his first carload shipment yesterday. The ore was of milling grade. Carnduff and his associates also hold a lease on the Crown Point, adjoining, but are cleaning up the drifts approaching the claim before extending laterals into Crown Point territory.

Acacia G. M. Co.  
Gus Johnson and associates who recently opened up a new vein for the Acacia Gold Mining company 200 feet north of the South Burns shaft, near the town of Altman on Bull hill, have already loaded out two cars of ore this week. A car of coarse rock is estimated at one ounce ore and the screenings at two ounces gold to the ton. A car of screenings shipped last week gave results of \$33.40 to the ton. Clarke and company at the second level of the South Burns and Tanner and company at the 900-foot level are also mining and shipping a good average grade of ore.

At the main Burns shaft located on the main street of Altman, McNamee and Rose are also mining and shipping ore to the valley mill.

Blanton's Independence.  
The mill at Stratton's Independence will resume treatment this week. The plant was closed down due to the freezing of the water supply.

## K. C. GRAIN MARKET

KANSAS CITY, Jan. 16.—Cash wheat steady; No 2 hard, \$1.03@1.08; No 3, \$1.01@1.07; No 2 red, 99¢@1.00; No 3, 98¢@99¢.

Corn steady to 1/4 higher; No 2 mixed, 87¢@88¢; No 3, 86¢; No 2 white, 87¢@88¢; No 3 white, 86¢@87¢.

Oats unchanged; No 2 white, 50¢@51¢; No 2 mixed, 49¢@49 1/2¢.

Rye, 86¢@87¢.

Hay steady; choice timothy, \$21.00@22.00; clover, \$15.00@15.50.

Broom corn, nominally steady.

Receipts—Wheat, 12 cars.

Close: Wheat—May, \$1.00 1/2 bid; July, 92¢@93¢ sellers. Corn—May, 66¢@67¢; July, 65¢@66¢ sellers.

## MONEY ON CALL

NEW YORK, Jan. 16.—Close: prime mercantile paper, 3 1/4% per cent; sterling exchange steady with actual business in bankers' bills at 48 1/2 for 60-day bills and at 48 3/4 for demand. Commercial bills, 48 1/2.

Bar silver, 56¢.

Mexican dollars, 47¢.

Government bonds steady; railroad bonds firm.

## REAL ESTATE AND STOCKS OF MERCHANDISE

Bought sold and exchanged. If you want to buy or have something to sell or exchange, let us hear from you. NATIONAL BROKERAGE COMPANY, 670 Ohio Street, Terre Haute, Ind.

## BIG SALARY IN NEW LEAGUE

NEW YORK, Jan. 16.—The newly formed United States league is in the baseball field for players with offers of high salaries, according to Pitcher Dick Rudolph of the Toronto team. Rudolph said tonight that a representative of the new league offered him a three-year contract at a guaranteed salary double the amount he is receiving at Toronto. The Toronto player asked for a week's time to consider.

## NEW YORK MARKET

NEW YORK, Jan. 16.—The usual leaders of the stock market slipped into the background today and the coals and tobacco stocks and bonds took their place. Of the three usual leaders, the Reading, the Erie and the United States Steel, only Reading attracted a following. Shortly before the close the market became active and prices advanced generally.

Activity in the tobacco issues was largely in the Liggett & Myers, Lorillard stocks and bonds. Liggett & Myers rose 8 points, the preferred 4 and Lorillard 4 1/2. Speculative interest in the coals, aroused by the declaration of an extra dividend on Lehigh Valley, grew broader today and took in some stocks usually inactive, including Delaware & Hudson and Central Railroad of New Jersey. The rise in the latter was 18 points to 38, a new record. Delaware & Hudson gained three points. Fluctuations in Lehigh Valley were comparatively narrow. The copper stocks, after a period of weakness, were inactive today. The fortnightly report of the Federal Reserve bank, showing a decrease of 1,700 tons. Sellers of the metal said the recent brisk demand subsided.

The sharp decline in the price of London has checked buying by domestic investors. The export movement of gold was resumed today, \$300,000 being engaged at the subtreasury, the greater part of which is to go to South America. The bond market was firm and somewhat more active. Transactions in the aggregate of 400,000 bushels. May ranged between 64 1/2 and 65 1/2, closing 64 1/2 net higher at 65 1/2. Cash grades were in fair demand. No. 2 yellow, in carlots, was quoted at 69 1/2 for old.

In the resulting absence of selling pressure, an advance in oats with other grain proved a natural course. May ranged from 49 1/2 to 49 3/4, with the close 49 3/4, a rise of 1/2 over last night.

The provision trade was of a fairly large volume, but unusually well distributed on both sides of the market. The outcome was a level of prices averaging little, if any, below last night.

## CHICAGO MARKET

CHICAGO, Jan. 16.—In spite of a "honey" that great quantities of Canadian wheat in bond would be used by Minneapolis mills to fill export orders, the wheat market today showed a decline. Closing prices were 1/2 to 1/4 higher than last night. Strong interests took all offerings and brought about the rise. Corn finished 1/4 to 1/2 up, oats at a gain of 1/4 to 1/2 and hog products additional cost.

After a selling flurry, which carried the price of May wheat under 88, the fact developed that to grind Canadian crops, the mills on this side of the international line would not only have to be put in bond, but all the output, both flour and feed, must be exported to escape paying duty. The idea that under such circumstances, any large amount of wheat from the prairies of Canada might be expected to see the inside of mills in the United States was rejected forthwith. Previously, however, many speculators had been carried off their feet by the announcement that Minneapolis and Duluth next month would have the same rate from the Canadian northwest as Port Arthur and Fort William. The close, was firm and within a shade of the top figure of the season. May fluctuated between 88 1/2 and 89 1/2, with last sales at 89 1/2, a gain of 1/4 to 1/2 net.

Decided strength was exhibited by corn. Persistent reports were current that sales for ocean shipment had reached an aggregate of 400,000 bushels. May ranged between 64 1/2 and 65 1/2, closing 64 1/2 net higher at 65 1/2. Cash grades were in fair demand. No. 2 yellow, in carlots, was quoted at 69 1/2 for old.

In the resulting absence of selling pressure, an advance in oats with other grain proved a natural course. May ranged from 49 1/2 to 49 3/4, with the close 49 3/4, a rise of 1/2 over last night.

The provision trade was of a fairly large volume, but unusually well distributed on both sides of the market. The outcome was a level of prices averaging little, if any, below last night.

## Breakfast Cereals

You want fresh stock of course. We have it, and can give you a large variety to choose from, too. You will find it cheaper to buy two packages instead of one in many instances, as for example: Cream of Rice, (a delicious new product), two for 25c; Cream of Wheat, (the great favorite) two for 35c; Pettigrew's, two for 25c; Grape Nuts, two for 25c, etc.

Try a package of Wheatena, Algram, Ralston's, or Uncle Sam breakfast food (and great remedy for constipation).

Come in and look at the lot. You'll find something you'll like.

Manitou yesterday and are located in one of Dr. L. H. Beck's cottages.

Mr. and Mrs. W. W. Mackey to Sedalia, Mo. are guests at the Acacia hotel. They will stay here for the winter.

Dr. and Mrs. Frederick A. Faust and son Louis are planning to leave in the early spring for Europe where they will remain for several months.

Mrs. David N. Helzer, accompanied by Mr. and Mrs. Willis R. Armstrong and family will leave the last of the week for La Jolla, Cal. where they will stay the remainder of the winter.

Miss Frances Helzer 1432 Wood avenue, is expecting a visit from Miss Purdy of Chicago who is making a tour of the world.

Mrs. Edward E. Whitaker 224 East Monument street has gone to Council, Ida to visit her daughter, Mrs. F. H. Morrison until April.

## NO SANATORIUM YET

R. L. Holland of this city past exalted grand ruler of the Elks, yesterday denied the report that the order will soon build a national sanatorium in Denver for tubercular patients. He declared that nothing definite will be done concerning the tuberculosis home until after the completion of improvements at the home in Virginia, which were ordered at the last grand lodge meeting.

More than 8 per cent of the wealth of the United States is invested in electrical enterprises.
